Investigating Musical Performance Gianmario Borio, Giovanni Giuriati, Alessandro Cecchi, Marco Lutz, 2020-05-21

Investigating Musical Performance considers the wide range of perspectives on musical performance made tangible by the cross disciplinary studies of the last decades and encourages a comparison and revision of theoretical and analytical paradigms. The chapters present different approaches to this multi layered phenomenon including the results of significant research projects. The complex nature of musical performance is revealed within each section which either suggests aspects of dialogue and contiguity or discusses divergences between theoretical models and perspectives. Part I elaborates on the history, current trends and crucial aspects of the study of musical performance. Part II is devoted to the development of theoretical models highlighting sharply distinguished positions. Part III explores the relationship between sign and sound in score based performances. Finally, the focus of Part IV centres on gesture considered within different traditions of musicmaking. Three extra chapters by the editors complement Parts I and III and can be accessed via the online Routledge Music Research Portal. The volume shows actual and possible connections between topics, problems, analytical methods and theories, thereby reflecting the wealth of stimuli offered by research on the musical cultures of our times.

Drugs Law and Legal Practice in Southeast Asia Tim Lindsey, Pip Nicholson, 2016-07-28 *Drugs Law and Legal Practice in Southeast Asia* investigates criminal law and practice relevant to drugs regulation in three Southeast Asian jurisdictions: Indonesia, Singapore and Vietnam. These jurisdictions represent a spectrum of approaches to drug regulation in Southeast Asia, highlighting differences in practice between civil and common law countries and between liberal and authoritarian states. This book offers the first major English language empirical investigation and comparative analysis of regulation, jurisprudence, court procedure and practices relating to drugs law enforcement in these three states.

The Practice of Generalist Social Work Julie Birkenmaier, Marla Berg-Weger, 2017-05-25 The fourth edition of *The Practice of Generalist Social Work* continues to teach students to apply micro, macro and mezzo social work skills. This new edition strengthens the connection between the three levels of practice and is fully updated to the 2015 EPAS. This edition also contains more illustrations of theory and more context for deciding which type of intervention is a good fit. Most chapters now open with a case study and continually refer back to the case to provide additional connections between theory and real life practice. Each chapter also incorporates a link to a Grand Challenge of Social Work from the American Academy of Social Work and Social Welfare which shows the connection between social work and the most significant societal challenges of today. The Quick Guides within the text offer students guidance for their field experience and practice after graduation. The text also comes with a rich companion website that includes support materials and six unique cases that encourage students to learn by doing. Go to www.routledgesw.com to explore the cases and additional resources.

Linguistic Practice in Changing Conditions Ben Rampton,2021-10-19

This book demonstrates the power and distinctiveness of the contribution that sociolinguistics can make to our

understanding of everyday communicative practice under changing social conditions It builds on the approaches developed by Gumperz and Hymes in the 1970s and 80s and it not only affirms their continuing relevance in analyses of the micropolitics of everyday talk in urban settings but also argues for their value in emergent efforts to chart the heavily securitised environments now developing around us Drawing on 10 years of collaborative work and ranging across disciplinary interdisciplinary and applied perspectives the book begins with guiding principles and methodology shifts to empirically driven arguments in urban sociolinguistics and concludes with studies of in securitised communication addressed to challenges ahead

Alternative Models of Addiction Hanna

Pickard, Serge H. Ahmed, Bennett Foddy, 2015-12-07 For much of the 20th century theories of addictive behaviour and motivation were polarized between two models The first model viewed addiction as a moral failure for which addicts are rightly held responsible and judged accordingly The second model in contrast viewed addiction as a specific brain disease caused by neurobiological adaptations occurring in response to chronic drug or alcohol use and over which addicts have no choice or control As our capacity to observe neurobiological phenomena improved the second model became scientific orthodoxy increasingly dominating addiction research and informing public understandings of addiction More recently however a dissenting view has emerged within addiction research based partly on new scientific research and partly on progress in philosophical and psychological understandings of relevant mental phenomena This view does not revert to treating addiction as a moral failure but nonetheless holds that addictive behaviour is fundamentally motivated by choice and subject to at least a degree of voluntary control On this alternative model of addiction addictive behaviour is an instrumental means to ends that are desired by the individual although much controversy exists with respect to the rationality or irrationality of these ends the degree and nature of the voluntary control of addictive behaviour and motivation the explanation of the difference between addictive and non addictive behaviour and motivation and lastly the extent to which addictive behaviour and motivation is correctly characterised as pathological or diseased This research topic includes papers in the traditions of neuroscience psychology philosophy law and social science that explore alternative understandings of addiction

Resilience David Chandler, 2014-05-09 Resilience has become a central concept in government policy understandings over the last decade In our complex global and interconnected world resilience appears to be the policy buzzword of choice alleged to be the solution to a wide and ever growing range of policy issues This book analyses the key aspects of resilience thinking and highlights how resilience impacts upon traditional conceptions of governance This concise and accessible book investigates how resilience thinking adds new insights into how politics both domestically and internationally is understood to work and how problems are perceived and addressed from educational training in schools to global ethics and from responses to shock events and natural disasters to long term international policies to promote peace and development This book also raises searching questions about how resilience thinking influences the types of knowledge and understanding we value and challenges traditional conceptions of social and political processes It sets forward a new and clear conceptualisation of resilience of use to students academics and policy makers emphasising the links between the rise of resilience and awareness of the complex nature of problems and policy making

Collected Papers in Theoretical Economics (Volume V):

Economic Policy and Its Theoretical Bases Kaushik Basu, 2018-10-04 Effective policymaking is based on economics which is a blend of empiricism as well as theory. It needs to be grounded not only in data statistics and the regularities observed therein but also analytics deductive reasoning and logic which are the constituents of theory. Published during 2009, 16 the seven years that Basu spent as a policymaker first as chief economic adviser to the Government of India and then as chief economist of the World Bank, this volume draws on the work done by empirical economists and is rooted in analytics even while addressing practical down-to-earth problems. The papers having a direct bearing on economic policymaking in this quintessential compilation range from topics such as financial regulation, global policy coordination, aspects of the Indian economy like fiscal and monetary policy, design, inflation management, food grain policy, and more generally the influence of theory on government policymaking. The volume addresses some of the most compelling challenges of our times from the global financial crisis and subprime mortgage breakdown to corruption control and the design of interventions to provide subsidized food to the disadvantaged segments of society.

Spirituality across Disciplines: Research and Practice: Marian de Souza, Jane Bone, Jacqueline Watson, 2016-06-29 This book collects multiple disciplinary voices which explore current research and perspectives to discuss how spirituality is understood, interpreted, and applied in a range of contexts. It addresses spirituality in combination with such topics as Christian mysticism, childhood and adolescent education, midwifery, and sustainability. It links spirituality to a variety of disciplines including cognitive neuroscience, sociology, and psychology. Finally, it discusses the application of spirituality within the context of social work, teaching, health care, and occupational therapy. A final chapter provides an analytical discussion of the different voices that appear in the book and offers a holistic description of spirituality which has the potential to bring some unity to the meaning, expression, and practice of spirituality across a variety of disciplines as well as across cultural, religious, and secular worldviews. A strength of the book is that each chapter is characterized by a fearless confronting of oppositional perspectives and use of the latest research in addressing them. The book takes the difficult topic of spirituality into almost every nook and cranny of personal and professional life. There is a persistent grasping of the contentiousness of the topic together with addressing counter positions and utilizing updated research across a range of fields in doing this. The opening and closing chapters serve as book ends that keep the whole volume together. Terence Lovat, The University of Newcastle, Australia. The interdisciplinary nature of the work is by far the strongest aspect of this volume. It has the potential to contribute to a dialogue between different professions and disciplines. This prospective publication promises to promote a more holistic approach to the study of spirituality. This volume takes into consideration a wide variety of issues. The way the editors have structured the sequence of chapters contributes to facilitate any possible dialogue between the different areas. Adrian Mario Gellel, University of Malta, Malta.
