The History of Pizza Luca Cesari, 2025-09-10
 Pizza is the Italian food that has conquered the world from Brussels to LA from Beijing to Buenos Aires pizzas and pizzerias can be found everywhere today But what are the origins of this food and how did it rise from its humble beginnings to become the world's best loved dish The story begins in the narrow alleys of Naples where in the late eighteenth century the city's impoverished inhabitants lived in a state of constant hunger Pizza was born as a street food to assuage the hunger of Naples' poor Cheap and versatile it remained anonymous for more than a century the few outsiders who encountered this strange flatbread more burned than cooked either loved it or hated it Gradually pizza spread to other parts of Italy and then with the mass migration of Italians to the New World it landed in the United States where it enjoyed unprecedented success invigorated by new ingredients new recipes and new tastes Today Americans are the biggest consumers of pizza in the world at 13 kilos per head per year The renowned culinary historian Luca Cesari retraces the story of pizza's rise from the backstreets of Naples to a global industry now worth more than 200 billion a year He describes how pizzas were made the ingredients used and the reactions of travelers critics and consumers Richly illustrated with recipes from different times and places The History of Pizza will transform your view of Italy's most iconic food
