Provenzo,Dan W. Butin,2015-09-15

Learning in secondary school classrooms involves much more than students reciting the right answers on high stakes tests This activity packed book encourages educators to move beyond traditional models of teaching and learning and provides them with the tools for getting started 100

Experiential Learning Activities for Social Studies Literature and the Arts Grades 5-12 focuses on using active learning to engage students in critical thinking and reflection about complex content knowledge in the humanities and the arts. The 100 activities address significant social issues including social justice, culture, language, and diversity. Teachers can emphasize comprehension, encourage creative thinking, and promote transfer across disciplines to help students explore primary sources to uncover practical and relevant information. Construct careful arguments to integrate new learning with prior knowledge. Question deeply held assumptions to arrive at authentic understandings. Approach new ideas with confidence. Take your students through meaningful learning experiences and make knowledge come alive.

Proceedings of the 12th Reinventing Space Conference Scott Hatton, 2016-12-25. The proceedings of the 2014 Reinventing Space conference present a number of questions in the context of a constantly innovating space industry: from addressing the future of global cooperation, investigating the impact of cuts in US government spending on the private space sector, and probing the overall future of the commercial launch sector. Space tourism and new technology promise the revival of interest in space development. The Apollo Era was the first period of intense space activity and growth. The need to create dramatically lower cost, responsive and reliable launch systems and spacecraft has never been more vital. Advances in technology are allowing smaller and cheaper satellites to be orbited, from cubesats to nanosatellites to femtosatellites. Thanks to more efficient new launch possibilities, low cost access to space is becoming ever more achievable. Commercial companies and countries are targeting the industry with new funding. Organised by the British Interplanetary Society, the presentations at this conference thoroughly address these challenges and opportunities.

Soaring Through the Universe Joanne Letwinch, 1999-03-15. Teach the basics of astronomical and space science using lively retellings of traditional folktales and quality children's literature. Reproducible activities and project ideas that meet NSTA standards combine stories and facts with language arts, math, science, art, and music using the multiple intelligences approach. An extensive bibliography and other resources such as addresses for Web sites and organizations in the area of astronomy and space science are included. Grades 3-6, adaptable to other levels.
