Performance Auditing of Public Sector Property Contracts Lori Keating, 2016-05-13 PPP/PFI contracts often share a number of features: they run over a very long period of time; they are conceived without a complete understanding of how requirements may change; and despite the rhetoric, they tend to create a context where dispute and litigation rather than partnership are the norm. In this environment, effective auditing is essential to ensure that projects are delivering what the end user requires. Audits are both a public sector right and a matter of good management sense. **Performance Auditing of Public Sector Property Contracts** is a practical guide to performance auditing for public sector property managers with a series of guidelines for auditors of public sector property contracts. The book concentrates on Facilities Management contracts. Lori Keating explains the basis for the process, how to retain balance, independence and rigour, and how to audit intangible performance measures and other tricky areas. The book follows an audit process from commencement to conclusion and contains a discussion of factors that contribute to the success of any audit. It is essential reading for public sector auditors, PPP project managers and contractors.

Corporate Real Estate Management Jan Gerard Hoendervanger, Theo van der Voordt, Jaap Wijnja, 2024-09-09 How can Corporate Real Estate managers and Facility managers translate an organisation's strategy into a real estate strategy that optimally aligns demand and supply and adds value in a sustainable and socially responsible way? How to create a positive user experience taking into account the diversity and dynamics of individual users' needs? How to balance different functional, experiential, architectural and technical requirements, budget, time and legal preconditions? This book discusses Corporate Real Estate (CRE) and Corporate Real Estate Management (CREM) from the perspective of organisations, individual users, other stakeholders and society. It presents theories, models and methods for analysing demand and supply and the best possible match. It discusses how to implement a CRE strategy by setting up project-based business cases, developing design briefs and managing CRE interventions and CRE operations. Finally, it describes different options for the organisational design of CREM, sourcing strategies, required competencies and future prospects. As such, the book covers the whole life cycle of corporate real estate. It integrates knowledge from different disciplines including corporate real estate and facility management, environmental psychology, ergonomics, business administration and many more. The authors have decades of experience in the field as practitioners, teachers and researchers. Jan Gerard Hoendervanger currently works as an independent CRE consultant. Theo van der Voordt is emeritus associate professor in Corporate Real Estate and Facility Management at the Faculty of Architecture, Delft University of Technology. Jaap Wijnja is lecturer and researcher at Hanze University of Applied Sciences, Institute of Facility
