

5 Using Your Headset System

Powering Up the Headset

If the headset battery is charged and connected to the headset, the headset is automatically on. The headset does not have an on/off button.

Talk Time

With a single full charge, the Savi 9440 will provide up to 7 hours of talk time. Talk time will be reduced when operating in extended mode and/or if the headset is used consistently at a far distance from the adapter. The battery can be replaced, even mid-call, giving essentially unlimited talk time.

Muting a Headset During a Call

To mute/unmute the call, press the volume/mute button in. The USB adapter light will flash red when the headset is muted.

When mute is activated, you will hear three high tones. When unmuted, you will hear three low tones.

After the Plantronics software is loaded, the mute tones can be turned off by going to Start > Programs > Plantronics Control Panel > Device > Device Settings > Headset > Mute Tone.

Right Ear Headset Button Functions

This table shows the headset button functions when you are wearing the headset on the right ear. If you wear the headset on the left ear, the volume button presses are opposite. See the appendix for a left ear headset button functions table.

Function	Type of Press	Tones/Lights
Place, answer, or end call	Short press call control button	1 mid-tone USB adapter flashes green when headset is on
Increase volume	Short press volume up	1 tone with pitch increase
Decrease volume	Short press volume down	1 tone with pitch decrease

Mute/unmute headset	While on a call, press the volume/mute button in	USB adapter flashes red when muted 3 high tones when muted 3 low tones when unmuted
Low battery warning		After 1 low tone/15-sec On call, 3 low tones

For your safety, do not use headset at high volumes for extended periods of time. Doing so can cause hearing loss. Always listen at moderate levels. For more information on headset and hearing visit:
