The Klansman's Son R. Derek Black, 2024-05-14 From the former heir apparent to white nationalism The Klansman's Son is an astonishing memoir of a childhood built on fear of breaking from a community of hate When coded language and creeping authoritarianism spread the ideas of white nationalists this is an essential book with a powerful voice Derek Black was raised to take over the white nationalist movement in the United States Their father Don Black was a former Grand Wizard in the Ku Klux Klan and started Stormfront the internet's first white supremacist website Derek built the kids page David Duke was also their close family friend and mentor Racist hatred though often wrapped up in respectability was all Derek knew Then while in college in 2013 Derek publicly renounced white nationalism and apologized for their actions and the suffering that they had caused The majority of their family stopped speaking to them and they disappeared into academia convinced that they had done so much harm that there was no place for them in public life But in 2016 as they watched the rise of Donald Trump they immediately recognized what they were hearing the spread and mainstreaming of the hate they had helped cultivate and they knew that they couldn't stay silent This is a thoughtful insightful and moving account of a singular life with important lessons for our troubled times Derek can trace a uniquely insider account of the rise of white nationalism and how a child indoctrinated with hate can become an anti racist adult Few understand the ideology motivations or tactics of the white nationalist movement like Derek and few have ever made so profound a change **Scala:Applied**
