Ronald Kessler Secret Service 2:

Summary of Ronald Kessler's The First Family Detail Everest Media,2022-04-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The president s military aide carries the nuclear football which is a leather covered titanium case that weighs forty pounds It contains a variety of secure phone capabilities and options for launching nuclear strikes 2 When Biden travels he insists on only two Secret Service vehicles In contrast when Reagan traveled the military aide with the nuclear football was on horseback with him Only the president or the vice president as their constitutional successor can order the release of nuclear weapons 3 The football is so highly classified that all information about it has been incorrect It does not operate like an ATM with the president or vice president inserting the authenticator card and punching in launch codes to authorize a strike 4 Despite the obvious danger to the country no one in Secret Service management has ever blown the whistle on Biden His behavior is equally bizarre He regularly goes swimming nude in his pool at his residence in Delaware and his vice president s residence in Greenville Who's Who in the Secret Service Vincent Palamara,2018-08-22 America s oldest law enforcement agency the United States Secret Service has never been exposed like this before The Secret Service has made many headlines through the decades especially in the last five years This book presents a thorough look at more than 100 of the most famous infamous and interesting agents who have protected presidents from William McKinley to John F Kennedy to President Trump and everyone in between Students of history will find much to contemplate in this revealing entertaining and sometimes disturbing book Readers will never look at the men who guard the president the same way ever again **Summary of Ronald Kessler's The Trump White House**

Everest Media,2022-05-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Norma Foerderer was Trump s top aide for 26 years She told me there are two Trumps the public Trump who makes outrageous comments to get attention and the real Trump who is the dearest most loyal and caring man 2 Trump s butler Tony Senecal told me that his wife Melania ruled the roost at Mar a Lago Melania was quiet but she had a strong influence on her husband 3 Trump also never forgets what it is like to be down and out In the 1990s when his companies were 3 4 billion in the hole and he was personally liable for 830 million of that debt he had a negative net worth But his brand came to stand for quality prestige and success 4 Trump s tough guy image goes back to his childhood when he would pummel another boy or smash a baseball bat when he struck out He wanted to be first at everything and he wanted everyone to know it

up close look at life in the service Secrets of the Secret Service Gary J. Byrne, Grant M. Schmidt, 2018-01-02 From the author of the 1 New York Times bestseller CRISIS OF CHARACTER comes an explosive new exposé of the Secret Service The United States Secret Service is tasked with protecting our Presidents their families and the complex in which they live and work Given this important mission world stability rests upon the shoulders of its agents In his new book former Secret Service officer Gary Byrne takes readers behind the scenes to understand the agency's history and today's security failings that he believes put Americans at risk The American public knows the stories of Secret Service heroism but they don't know about the hidden legacy of problems that have plagued the agency ever since its creation Gary Byrne says that decades of catastrophic public failures near misses and bureaucratic and cultural rot threaten to erode this critical organization from the inside out Today as it works to protect President Trump the Secret Service stands at a crossroads and the time needed to choose the right course is running out Agents and officers are leaving the Secret Service in droves or they're being overworked to the point where they lose focus on the job Management makes decisions based on politics not the welfare of their employees Byrne believes that this means danger for the men and women of the Secret Service danger for the President they protect and danger for the nation In this book he shares what he has witnessed and learned about the Secret Service with the hope that the problems of this most important agency can be fixed before it's too late *Hunting the President* Mel Ayton, 2014-04-14 In American history four U S Presidents have been murdered at the hands of an assassin In each case the assassinations changed the course of American history But most historians have overlooked or downplayed the many threats modern presidents have faced and survived Author Mel Ayton sets the record straight in his new book Hunting the Presidents Threats Plots and Assassination Attempts From FDR to Obama telling the sensational story of largely forgotten or never before revealed malicious attempts to slay America's leaders Supported by court records newspaper archives government reports FBI files and transcripts of interviews from presidential libraries Hunting the Presidents reveals How an armed would-be assassin stalked President Roosevelt and spent ten days waiting across the street from the White House for his chance to shoot him How the Secret Service foiled a plot by a Cuban immigrant who told coworkers he was going to shoot LBJ from a window overlooking the president's motorcade route How a deranged man broke into Reagan's California home and attempted to strangle the former president before he was subdued by Secret Service agents In early 1992 a mentally deranged man stalking Bush turned up at the wrong presidential venue for his planned assassination attempt The relationships presidents held with their protectors and the effect it had on the Secret Service's mission Hunting the Presidents opens the vault of stories about how many of our recent Presidents have come within a hair's breadth of assassination leaving America's fate in the balance Most of these stories have remained buried until now Includes glossy photo signature of historic pictures and documents **The Ranger Ideal Volume 2** Darren L. Ivey, 2018-11-15 They say everything is bigger in Texas and the Lone Star State can certainly boast of immense ranches vast oil fields enormous

The Kennedy Half-Century Larry J. Sabato, 2014-10-14 An original and illuminating narrative revealing John F Kennedy s lasting influence on America by the acclaimed political analyst Larry J Sabato

The Oil Kings Andrew Scott Cooper, 2012-09-11 Relying on a rich cache of previously classified notes transcripts cables policy briefs and memoranda Andrew Cooper explains how oil drove even corrupted American foreign policy during a time when Cold War imperatives still applied and tells why in the 1970s the U S switched its Middle East allegiance from the Shah of Iran to the Saudi royal family Amid the oil shocks of the early 1970s there was one man the U S could rely on the Shah of Iran The Shah sold us oil we sold him weapons But the U S and other industrialized economies could not tolerate repeated annual double digit increases in oil prices During the 1976 election campaign President Gerald Ford decided that he had to find a country that would break the OPEC monopoly and sell the U S oil more cheaply On the advice of Treasury Secretary William Simon and against the advice of Secretary of State Henry Kissinger Ford made a deal to sell advanced weaponry to the Saudis in exchange for a more moderate price hike in oil The Shah s economy was destabilized and disaffected elements mobilized to overthrow him The U S had embarked on a long relationship with the autocratic Saudi kingdom that continues to this day

What Jefferson Read, Ike Watched, and Obama Tweeted Tevi Troy, 2013-09-02 Explores how U S presidents cultural pursuits shaped their leadership while examining how the reading habits of early presidents have been sidelined by such technological advances as the radio the television and the Internet

Statesmen and Mischief Makers: Volume Iii Scott Crass, 2016-04-27 My first two volumes of Statesmen and Mischief Makers portrayed the stories of officeholders who had tremendous impact on politics at the national level either by way of Presidential proximity legislative accomplishments or simply through living a life of idiosyncrasies that made a great anecdote or two Governors and big city Mayors are no different There were smart leaders courageous leaders visionary leaders and inevitably small minded and even unscrupulous leaders In other words leaders who were anything but Whatever

the case the Governors that ushered their state structure into a modern era or the Mayors whose cities have become the cultural meccas with landmarks that attract millions are all people who deserve recognition And yes so do the people who ended up on the wrong side of the law and went to jail Volume three examines these individuals All presided within the times of Kennedy to Reagan All are Statesmen and Mischief Makers And all are told here **The Publishers Weekly** ,2009

The Grifter's Club Sarah Blaskey,Nicholas Nehamas,Caitlin Ostroff,Jay Weaver,2020-08-04 An astonishing look inside the gilded gates of Mar a Lago the palatial resort where President Trump conducts government business with little regard for ethics security or even the law Donald Trump s opulent Palm Beach club Mar a Lago has thrummed with scandal since the earliest days of his presidency Long known for its famous and wealthy clientele the resort s guest list soon started filling with political operatives and power seekers Meanwhile as Trump re branded Mar a Lago the Winter White House and began spending weekends there state business spilled out into full view of the club s members and vast sums of taxpayer money and political donations began flowing into its coffers and into the pockets of the president The Grifter s Club is a breakthrough account of the impropriety intrigue and absurdity that has been on display in the place where the president is at his most relaxed In these pages a team of prizewinning Miami Herald journalists reveal the activities and motivations of the strange array of charlatans and tycoons who populate its halls Some peddle influence some seek inside information and some just want to soak up the feeling of unfettered access to the world s most powerful leaders With the drama of an expose and the edgy humor of a Carl Hiaasen novel The Grifter s Club takes you behind the velvet ropes of this exclusive club and into its bizarre world of extravagance and scandal **Sedition Hunters** Ryan J. Reilly,2023-10-17 The January 6th attack is an unprecedented crime in American history Sprawling and openly political it can t be handled by the traditional rules and norms of law enforcement threatening the very idea of justice and its role in society The attack on the Capitol building following the 2020 election was an extraordinarily large and brazen crime Conspiracies were formed on social media in full public view the law breakers paraded on national television with undisguised faces and with outgoing President Donald Trump openly cheering them on The basic concept of law enforcement investigators find criminals and serve justice quickly breaks down in the face of such an event The system has been strained by the sheer volume of criminals and the widespread perception that what they did wasn t wrong A mass of online tipsters sedition hunters have mobilized simultaneously providing the FBI with valuable intelligence and creating an ethical dilemma Who gets to serve justice How can law enforcement still function as a pillar of civil society As the foundations of our government are questioned the FBI and Department of Justice are the first responders to a crisis of democracy and law that threatens to spread and fast In this work of extraordinary reportage Ryan Reilly gets to know would be revolutionaries obsessive online sleuths and FBI agents and shines a light on a justice system that s straining to maintain order in our polarized country From the moment the police barriers were breached on January 6th 2021 Americans knew something had profoundly changed Sedition Hunters is the

fascinating high stakes story of what happens next *From Slave Cabins to the White House* Koritha Mitchell, 2020-08-31 Koritha Mitchell analyzes canonical texts by and about African American women to lay bare the hostility these women face as they invest in traditional domesticity Instead of the respectability and safety granted white homemakers black women endure pejorative labels racist governmental policies attacks on their citizenship and aggression meant to keep them in their place Tracing how African Americans define and redefine success in a nation determined to deprive them of it Mitchell plumbs the works of Frances Harper Zora Neale Hurston Lorraine Hansberry Toni Morrison Michelle Obama and others These artists honor black homes from slavery and post emancipation through the Civil Rights era to post racial America Mitchell follows black families asserting their citizenship in domestic settings while the larger society and culture marginalize and attack them not because they are deviants or failures but because they meet American standards Powerful and provocative *From Slave Cabins to the White House* illuminates the links between African American women's homemaking and citizenship in history and across literature Protecting the Presidential Candidates Mel Ayton, 2021-11-24 *Protecting the Presidential Candidates* is the first book of its kind to examine how presidents and presidential candidates were protected during the presidential election cycles from JFK to Biden It is also the first book of its kind to tell the story of the role of state troopers and private bodyguards in protecting presidential candidates Protection for candidates changed and evolved from the free wheeling style of the 1950s and early 1960s which afforded presidential candidates little or no protection to the growth of bodyguard personnel increased intelligence facilities and state of the art technology employed today to keep the candidates safe Presidential candidates relish connecting with the public and it has given greater visibility to the bodyguards who are willing to place themselves between a presidential candidate and a would be attacker In the milieu in which the Secret Service operates bodyguards have witnessed the terrors of election campaigns when presidential candidates have waded into crowds to shake hands with their supporters rode in open top cars and made sudden but risky changes to their schedules oblivious to the fact that in every campaign there have been people stalking candidates with ill intent Many stories revealed in *Protecting the Presidential Candidates* have remained largely hidden from the public some buried in newspaper archives and others in oral histories presidential libraries or official government documents The author draws on numerous sources including FBI files presidential biographies vice presidential biographies civilian bodyguard memoirs Secret Service agent memoirs White House staff memoirs and more so that these stories can now be told The book also allows readers to gain an insight into the personal as well as professional relationships between the candidate and the bodyguards who protected them Some candidates were so trusting of their bodyguards they embraced them as part of an inner circle of advisers Bodyguards have also witnessed embarrassing moments in a candidate's campaign and how intrusive they have been at the most delicate of moments The president's day is your day one agent said Nobody sees the president the way an agent does The Executive Branch Bonnie Hinman, 2012 The U S Constitution says very little about the duties and powers of the head of the

nation's executive branch The Constitution's authors were much more certain about what they didn't want in a president than what they did want When George Washington took the oath of office to become the first president of the United States he governed the country with authority and a sense of what a president should be Since then U S presidents have used his example and Article II of the Constitution as a guide for running the country Those who have challenged the Constitution defied it or ignored it have been defeated by it The Constitution with its system of checks and balances remains the heart of the U S government

Guncrazy America Frank N. Egerton, 2018-10-06 The conclusion of this professor historian emeritus is that our gun culture had its uses in establishing American civilization as slavery did But we came to recognize after a bloody civil war that slavery was a gigantic mistake and now I think it's time to realize that our gun culture was a similarly gigantic mistake though of a different kind And we need to do what we can to minimize its horrible impacts and move on to a more positive development of a humane civilization

The Bidens Ben Schreckinger, 2021-09-21 A deeply reported exploration of Joe Biden as told through his extended family Coming off of the 2020 election THE BIDENS tells the Biden Family story in full from the secrets lurking in the deep recesses of Joe's family tree to his son Hunter's foreign deal making spree and the Trump gang's ham handed efforts to exploit it On November 3 Americans did not just elect Joe Biden They got a package deal The tight knit Biden family siblings children in laws and beyond is coming right along with him They are sure to play a defining role in his presidency just as they have in every other one of his endeavors Inside you'll find these and other stories and revelations about the Biden family including Joe's childhood the stunning 1972 Senate upset engineered by his sister Valerie and the car accident that took the lives of his first wife and infant daughter soon after Joe's early years in the Senate and his role in the creation of the cozy Delaware Way of conducting politics The Biden brothers business escapades including the 70s rock club rivalry that pitted Jim Biden against Jill's first husband and ended in a banking scandal The Delaware lawman who oversaw an FBI investigation into Joe's 2007 campaign fundraising and now has Hunter in his sights Hunter's surprisingly close friendship with his Fox News antagonist Tucker Carlson What Steve Bannon really hoped to accomplish by giving the contents of the Laptop from Hell to the New York Post New evidence that sheds light on the authenticity of Hunter's alleged computer files Like the Kennedys before them the Bidens are a tight knit idealistic Irish Catholic clan with good looks dynastic ambitions and serious personal problems As THE BIDENS reveals the best way to understand Joe Biden his values fears and motives is to understand his family Their Irish and not so Irish roots their place in the Delaware pecking order their dodgy business deals and their personal struggles and triumphs alike

The Hidden White House Robert Klara, 2013-10-22 In 1948 Harry Truman President of the United States almost fell through the ceiling of the Blue Room in a bathtub into a meeting of the Daughters of the American Revolution A team of the nation's top architects was hastily assembled to inspect the White House and upon seeing the state the old mansion was in insisted the First Family be evicted immediately What followed was the biggest home improvement job the nation had ever seen
