Preparing for Blockade 1885-1914 Stephen Cobb,2016-04-08 Today the First World War is remembered chiefly for the carnage of the Western Front but at the time the Royal Navy s blockade of Germany was a more frequent source of debate For even at a time of war there were influential voices in Britain who baulked at a concept of economic warfare that hindered the free passage of goods on the high seas and brought German society to the brink of famine To further our understanding of these issues this book looks at the background to the blockade and the effects of its implementation in 1914 It argues that there was a widely shared but largely unwritten strategic culture within British naval circles which accepted that in a war with a major maritime power the British response would be to attack enemy trade This is demonstrated by the fact that from at least the late 1880s the Royal Navy planned for the use of armed merchantmen to enforce an economic blockade of an enemy This it did by entering into detailed arrangements with major British shipping companies for the design and subsidy of liners with the potential for use as merchant cruisers and stockpiling their prospective armament In line with the contemporary Corbettian view that seapower depends upon free communications the book concludes by asserting that the primary role of the Grand Fleet in the First World War was to guarantee the ability of the merchant cruisers on the Northern Patrol to interdict German seaborne trade rather than to engage in large set piece battles *Catalogue of the Library of the Royal Colonial Institute. 1886* Royal Commonwealth Society. Kathirithamby-Wells,2005-10-31 *Nature and Nation* explores the relations between people and forests in Peninsular Malaysia where the planet s richest terrestrial eco system met head on with the fastest pace of economic transformation experienced in the tropical world It engages the interplay of history culture science economics and politics to provide a holistic interpretation of the continuing relevance of forests to state and society in the moist tropics Malaysia has long been singled out for emulation by developing nations an accolade contradicted in recent years by concerns over its capital rather than poverty driven forest depletion The Malaysian case supports the call for re appraisal of entrenched prescriptions for development that go beyond material needs Book cover
