**The Maternal, Digital Subjectivity, and the Aesthetics of Interruption** EL Putnam, 2022-04-21 Bringing together philosophies of the maternal with digital technology may appear to be an arbitrary pairing However reading them intertextually through select creative practices reveals how both encompass an aesthetics of interruption that becomes a novel means of understanding subjectivity EL Putnam investigates how the digital performances of certain artists creators and technologists rupture existing representations of the maternal taking advantage of the formal properties of digital media What results are interruptions of visual and aural constructions through an immanent merging of the performing body with digital technologies Putnam bases her analysis on close examinations of the way certain makers use the formal properties of digital imagery such as the gap the glitch and the lag as means of rendering images of the maternal uncanny in order to challenge mediation constituting an aesthetics of interruption The result is a radical critical strategy for engaging with digital technology and subsequent understandings of the subject that defy current modes of assimilation

**The Unnaming of Aliass** Karin Bolender, 2020 The Unnaming of Aliass performs a paradoxical quest for wildly untold stories in the company of one special donkey companion a femammal of the species *Equus asinus* and significantly a registered American Spotted Ass Beast of burden that she is this inscrutable companion helped carry a ridiculous load of human longings and quandaries into a maze of hot harrowing miles across the US South from Mississippi to Virginia in the summer of 2002 all the while carrying her own onerous and unreckoned burdens and histories Over two decades the original journey evolved from the cracking open of a quasi Western novel that never was by an implosive pun into an ongoing philosophical and aesthetic adventure a hybrid roadside and barnyard based living art practice wherein Aliass un names something much harder to grasp than the body of a

lovely little ass protagonist setting and traditional Western narratives turn inside out around this name that ain't Through a deeply dug in questioning of its own authorial assumptions The Unnaming of Aliass makes space for untold autobiographies and bright dusty lacunae tracing ineffable tales through the tangled shapes and shadows that interweave in any environment

**Multispecies Storytelling in Intermedial Practices** Ida Bencke,Jørgen Bruhn,2022-03-08 Multispecies Storytelling in Intermedial Practices is a speculative endeavor asking how we may represent relay and read worlds differently by seeing other species as protagonists in their own rights What other stories are to be invented and told from within those many tongued chatters of multispecies collectives Could such stories teach us how to become human otherwise Often the human is defined as the sole creature who holds language and consequently is capable of articulating representing and reflecting upon the world And yet the world is made and remade by ongoing and many tongued conversations between various organisms reverberating with sound movement gestures hormones and electrical signals Everywhere life is making itself known heard and understood in a wide variety of media and modalities Some of these registers are available to our human senses while some are not Facing a not so distant future catastrophe which in many ways and for many of us is already here it is becoming painstakingly clear that our imaginaries are in dire need of corrections and replacements How do we cultivate and share other kinds of stories and visions of the world that may hold promises of modest yet radical hope If we keep reproducing the same kind of languages the same kinds of scientific gatekeeping the same kinds of stories about our place in nature we remain numb in the face of collapse Multispecies Storytelling in Intermedial Practices offers steps toward a self critical multispecies philosophy which interrogates and qualifies the broad and seemingly neutral concept of humanity utilized in and around conversations grounded within Western science and academia Artists activists writers and scientists give a myriad of different interpretations of how to tell our worlds using different media and possibly gives hints as to how to change it too

Gonzalez s manuscript uses the theoretical underpinnings of Chicana and African American feminist intellectual history and epistemology to create a new understanding of the work done by Chicana artists and activists or artivistas from East Los Angeles from 1995 to the present Gonzalez is a well known musician from this community herself and with this background is especially focused on the ways the arts particularly music have created community engagement Gonzalez blends her own story as a Mexican immigrant s daughter in California who went on to become a Grammy Award winning musician as part of the band Quetzal into her work as an activist and her career as a scholar
