(Product)

Assessment of Learning

20 10 14 11

MULTIPLE CHOICE: Choose the most correct answer. (20/10)

1. Which of the following statements is TRUE?

- A) Cell walls are only found in animals.
- B) Cell walls are in plants and animals.
- C) Cell walls are found in plants but not in animals.
- D) None of the above are true.

2. The maximum size of a cell is limited by:

- A) its need for enough surface area for exchange with its environment.
- B) the number of organelles that can be packed inside.
- C) the materials needed to build it.
- D) the amount of flexibility it needs to be able to move.
- E) the amount of food it needs to survive.

3. Which organelle is responsible for this chemical transformation:
energy + carbon dioxide + water \rightarrow carbohydrate + oxygen?

- A) lysosome
- B) Golgi apparatus
- C) nucleus
- D) mitochondria
- E) chloroplast

4. Which of the following comparisons is NOT correct? Both plant and animal cells have _____.

- A) cell membranes
- B) nuclear membranes
- C) mitochondria
- D) chloroplasts
- E) vacuoles

5. Sister chromatids are held together by the _____.

- A) centriole
- B) spindle fibre
- C) nucleus
- D) nucleolus
- E) centrosome

6. When does DNA replication occur in the cell cycle?

Plato Answer Key For Biology Test:

Young Scientist Series ICSE Biology 6 Shakuntala Bhattacharya, Madhumita Seal, **Young Scientist Series ICSE Biology 8** Shakuntala Bhattacharya, Madhumita Seal, **The Hidden Curriculum - Faculty Made Tests in Science** Sheila Tobias,1997 **Biology, Science and Life** Wallace,Tietjen,1996 Resources in Education ,1989-06 **Final Solutions** Richard M. Lerner,R. C. Lewontin,Benno Muller-Hill,2010-11 The nature nurture debate continues to stir controversy in the social and behavioral sciences How much of human behavior and development can be attributed to biology and how much to the environment Can either be said to determine human development And what are the implications of each view for society In this important study a noted developmental psychologist contributes to this debate by confronting the difficult issue of doctrines of human development and the consequences for society of deriving political programs and public policy from them Beginning with the premise that scientific ideas are not neutral but can be used for either good or evil Richard Lerner considers the recent history of one such idea biological determinism which at times has had the backing of respected scientists intellectuals and political leaders During this century biological determinism has been coupled with political philosophies that hold that some people are inherently better than others This has meant that certain groups of people Jews Blacks Native Americans women have been stigmatized because of supposedly innate even biological differences with sometimes disastrous consequences The most notorious instance was Nazi Germany where racial science given legitimacy by the scientific community became a cornerstone of the Nazi Final Solution Meanwhile theories of biological determinism continue to find adherents within the scientific community Konrad Lorenz who was awarded a Nobel Prize in 1973 was a critical figure in the development of the most recent manifestation of biological determinism sociobiology Lerner examines the work of Lorenz and current sociobiologists and the implications of their claims for modern society He fears that biological determinism may again be co opted to serve the political agenda of today s reactionary politicians In fact Lerner notes sociobiologists have had to face the fact that organizations such as the fascist National Front party in Britain and its counterparts in France and the United States have selectively seized upon sociobiology to fuel their notions of genetically superior and inferior races Journal of Computer-based Instruction ,1982 **Publishers' circular and booksellers' record** ,1890 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1891 *Dancing Cockatoos and the Dead Man Test: How Behavior Evolves and Why It Matters* Marlene Zuk,2022-08-09 Longlisted for the 2023 PEN E O Wilson Literary Science Writing Award A lively exploration of animal behavior in all its glorious complexity whether in tiny wasps lumbering elephants or ourselves For centuries people have been returning to the same tired nature versus nurture debate trying to determine what we learn and what we inherit In *Dancing Cockatoos and the Dead Man Test* biologist Marlene Zuk goes beyond the binary and instead focuses on interaction or the way that genes and environment work together Driving her investigation is a simple but essential question How does behavior evolve Drawing from a wealth of

research including her own on insects Zuk answers this question by turning to a wide range of animals and animal behavior There are stories of cockatoos that dance to rock music ants that heal their injured companions dogs that exhibit signs of obsessive compulsive disorder and so much more For insights into animal intelligence mating behavior and an organism s ability to fight disease she explores the behavior of smart spiders silent crickets and crafty crows In each example she clearly demonstrates how these traits were produced by the complex and diverse interactions of genes and the environment and urges us to consider how that same process evolves behavior in us humans Filled with delightful anecdotes and fresh insights Dancing Cockatoos and the Dead Man Test helps us see both other animals and ourselves more clearly demonstrating that animal behavior can be remarkably similar to human behavior and wonderfully complicated in its own right **The**

Publishers' Circular and General Record of British and Foreign Literature ,1890 **Biology** Sandra Alters,2000

Designed for a one or two semester non majors course in introductory biology taught at most two and four year colleges This course typically fulfills a general education requirement and rather than emphasizing mastery of technical topics it focuses on the understanding of biological ideas and concepts how they relate to real life and appreciating the scientific methods and thought processes Given the authors work in and dedication to science education this text s writing style pedagogy and integrated support package are all based on classroom tested teaching strategies and learning theory The result is a learning program that enhances the effectiveness efficiency of the teaching and learning experience in the introductory biology course like no other before it **Biology Education for Social and Sustainable Development** Mijung Kim,C. H.

Diong,2012-10-20 In an era of globalization and urbanization various social economic and environmental challenges surround advances in modern biological sciences Considering how biological knowledge and practice are intrinsically related to building a sustainable relationship between nature and human society the roles of biology education need to be rethought to respond to issues and changes to life in this biocentury This book is a compilation of selected papers from the Twenty Third Biennial Conference of the Asian Association for Biology Education 2010 The title Biology Education for Social and Sustainable Development demonstrates how rethinking and reconstruction of biology education in the Asia Pacific region are increasingly grounded in deep understandings of what counts as valuable local knowledge practices culture and ideologies for national and global issues and education for sustainable development The 42 papers by eminent science educators from Australia China Philippines Singapore Taiwan and the U S represent a diversity of views understandings and practices in biology education for sustainable development from school to university in diverse education systems and social cultural settings in the Asia Pacific region and beyond The book is an invaluable resource and essential reference for researchers and educators on Asian perspectives and practices on biology education for social and sustainable development **English**
