Sanford, Janice Sanford Beck, 2009 *Life of the Trail* is a fascinating series that guides today's hikers and armchair travelers through the stories of historic routes in the Canadian Rockies. When authors Emerson Sanford and Janice Sanford Beck began backpacking together nearly 20 years ago, they often wondered whose footsteps they were retracing and how today's trails through the Rockies came to be there. In *Life of the Trail*, they share their findings with adventurers and history buffs alike. *Life of the Trail 4 Historic Hikes in Eastern Jasper National Park* includes trails throughout the Jasper area as well as routes outside the national park itself. The main routes are fur trade routes: Duncan McGillivray's route along the Brazeau River and Piboktan Creek; Jacques Cardinal's route from Jasper to the North Saskatchewan River along the South Boundary Trail and over Job Pass and Old Klyne's Trail over Maligne and Cataract Passes and along the Cline River to the Kootenay Plains. The fourth is a 20th-century route, the Skyline Trail. **It Happened in Rocky Mountain National Park** Phyllis J.

Perry, 2018-12-15 From an out-of-control wildfire that nearly destroyed a town to a serial spouse killer in Estes Park, *It Happened in Rocky Mountain National Park* looks at intriguing people and episodes from the history of Colorado's largest national park. Learn how two teens attempt to scale the Diamond, a sheer granite cliff so dangerous that climbing it used to be outlawed, resulted in one of the most complicated rescues in the park's history. Read about the life and untimely demise of Rocky Mountain Jim, who was badly scarred by a grizzly bear attack and earned a reputation as an eccentric but highly skilled wilderness guide. And meet Harriet Peters, an unusually tenacious girl who summited 14,259-foot tall Longs Peak at the tender age of eight. **Mammals of Colorado, Second Edition** David M. Armstrong, James P. Fitzgerald, Carron A.

Meaney, 2011-05-18 Co-published with the Denver Museum of Nature Science, *Thoroughly revised and updated Mammals of Colorado Second Edition* is a comprehensive reference on the nine orders and 128 species of Colorado's recent native fauna, detailing each species' description, habitat, distribution, population, ecology, diet, and foraging, predators, and parasites, behavior, reproduction, and development, and population status. An introductory chapter on Colorado's environments, a discussion of the development of the fauna over geologic time, and a brief history of human knowledge of Coloradan mammals provide ecological and evolutionary context. The most recent records of the state's diverse species, rich illustrations including detailed maps, skull drawings, and photographs, and an extensive bibliography make this book a must-have reference. Amateur and professional naturalists, students, vertebrate biologists, and ecologists, as well as those involved in conservation and wildlife management in Colorado, will find value in this comprehensive volume. **The Rocky Mountains** Alf Alderson, Cameron

Wilson, Christian Williams, 2002 A handbook to the peaks and valleys of Colorado, Wyoming, Montana, Idaho, and Northern Utah, this guide contains advice on outdoor adventures, including the region's trails, river runs, and ski slopes. Reviews are given on what to pack and where to eat, drink, and sleep in every area, and price range. In-depth coverage of gateway cities, Denver and Salt Lake City, and the grand geology of Glacier, Yellowstone, and Rocky Mountain National Parks is included. **Historic Hikes in Northern Yoho National Park** Emerson Sanford, Janice Sanford Beck, 2008 *Life of the Trail* is a fascinating new

series which will guide today's hikers and armchair travellers through the stories of historic routes in the Canadian Rockies. When authors Emerson Sanford and Janice Sanford Beck began backpacking together nearly 20 years ago they often wondered whose footsteps they were tracing and how today's trails through the Rockies came to be. In *Life of the Trail* they share their findings with adventurers and history buffs alike. The series divides the Rockies between Mount Robson and the Kananaskis Lakes into eight regions based on geographical boundaries that influenced 19th century travellers. Within each region the authors share the stories of those who recorded their travels along various routes between the time of the pioneers and the 1930s. Never before has such a thorough history been presented in this manner enabling adventurers to follow the history of the Rockies one route at a time. For those tempted to follow in the footsteps of these historic adventurers Emerson has hiked each and every trail in order to provide a detailed trail guide and interesting anecdotes from his own experiences. Each volume is rounded out with maps and colour photographs both historical and contemporary to further stimulate the imagination. *Life of the Trail 2: Historic Hikes in Northern Yoho National Park* follows the trails of fur traders La Gasse and Le Blanc, the Palliser Expedition, Tom Wilson, J. J. McArthur, Professor Jean Habel, Walter Wilcox, C. S. Thompson, David Thompson, Jimmy Simpson and Jack Brewster. Along the way the reader will journey past pristine lakes and glaciers that have become legendary throughout the world, discovering the stories behind routes through the mountain towns of Lake Louise and Field, over Howse, Amiskwi, Bow and Burgess passes, and along Yoho, Emerald and Castleguard rivers.

Continental Divide Maurice Isserman, 2016-04-21. This magisterial and thrilling history argues that the story of American mountaineering is the story of America itself. In *Continental Divide* Maurice Isserman tells the history of American mountaineering through four centuries of landmark climbs and first ascents. Mountains were originally seen as obstacles to civilization; over time they came to be viewed as places of redemption and renewal. The White Mountains stirred the transcendentalists; the Rockies and Sierras pulled explorers westward toward Manifest Destiny; Yosemite inspired the early environmental conservationists. Climbing began in North America as a pursuit for lone eccentrics but grew to become a mass participation sport. Beginning with Darby Field in 1642, the first person to climb a mountain in North America, Isserman describes the exploration and first ascents of the major American mountain ranges from the Appalachians to Alaska. He also profiles the most important American mountaineers, including such figures as John C. Fremont, John Muir, Annie Peck, Bradford Washburn, Charlie Houston, and Bob Bates, relating their exploits both at home and abroad. Isserman traces the evolving social, cultural, and political roles mountains played in shaping the country. He describes how American mountaineers forged a brotherhood of the rope modeled on America's unique democratic self-image that characterized climbing in the years leading up to and immediately following World War II. And he underscores the impact of the postwar rucksack revolution, including the advances in technique and style made by pioneering dirtbag rock climbers. A magnificent, deeply researched history, *Continental Divide* tells a story of adventure and aspiration in the high peaks that makes a vivid case for the importance of

mountains to American national identity *Mountaineering Literature* Jill Neate,1986 Long established as a standard reference work worldwide this is a thorough bibliography of all mountaineering books that are of practical use to climbers or for reading pleasure or historical interest Documenting more than 2000 books of mountaineering literature it also includes nearly 900 climber s guidebooks a sampling of more than 400 works of mountaineering fiction plus journals and bibliographies *Longs Peak* Dougald MacDonald,2004 Avid climber Dougald MacDonald has gathered histories hair raising tales and personal journeys to tell of this prominent peak in the Rocky Mountain National Park Reflections on mountaineering geology and wildlife are presented with historic images and gorgeous full color contemporary photography The ten best hiking and climbing routes plus See It Yourself activities offer great ways for both novices and seasoned climbers to explore the great mountain **A.L.A. Catalog, 1926** Isabella Mitchell Cooper,Marion Horton,1926 *Banff* Eleanor Georgina Luxton,2008 In this Banff history book Eleanor Luxton the daughter of one of Banff s pioneers presents us with a labour of love a comprehensive history of Banff National Park from its geological birth through its exploration and settlement to its growth as Canada s first National Park This story of Rocky Mountains Park is a sensitive portrayal of the natural and human history of the Banff area weaving together the romantic adventure of the earliest exploration and settlement with the realities of World Wars depressions and government influences It will most surely command rapt attention from both the casual reader and the historian Publisher s note Written in 1975 as an historical account and reprinted in 2008 Banff Canada s First National Park has itself become a piece of the park s history Respecting this significance we have strived to replicate the original book by re creating the original cover leaving the text as it appeared in 1975 complete with references to places that no longer exist such as the Buffalo Paddock and including photographs from Luxton s private collection The Booklist ,1926 **Sierra Club Bulletin** Sierra Club,1924 Includes section Book reviews
