THE TUBBY THEORY FROM TOPEKA Brian S. Edwards MD, 2010-01-25 It is time for Americans and their physicians to learn that there is more to do to prevent heart attacks and strokes Everyone must learn the difference between LDL C and LDL P and non HDL cholesterol The Tubby Factor Everyone must learn what a calcium score and a carotid intima thickness ultrasound does to detect subclinical atherosclerosis My book The Tubby Theory from Topeka teaches the above and demonstrates how I used the above tests to prevent heart disease and stroke and to also regress plaque in the arteries in my medical practice in Topeka for the last two years My goal is to change the Paradigm of preventive medicine in America The new paradigm is to find subclinical

atherosclerosis early with a calcium score and a CIMT to then treat it to stabilize the vulnerable plaque from inflammation and rupture Rupture of the plaque causes sudden death In 1 of 3 patients SUDDEN DEATH is the first sign of heart disease Reference Lipoprotein Management in Patients with Cardiometabolic Risk Brunzell et al JACC 2008 51 1513 Tim Russert died one year ago of sudden death The media reported nothing more could have been done for him Non HDL cholesterol goal of 40 inches for men and 35 inches for men or if you are diabetic Feel free to print this article out and show it

Ethics, Medical Research, and Medicine Andrew Thompson, Iqbal S. Shergill, N. Temple, 2011-06-27 Andrew Thompson Norman J Temple We humans are an extraordinary species One of our finest achievements is the development of morality of a sense of right and wrong We articulate and then impose this sensitivity upon ourselves in the form of ethical guidelines rules regulations and laws We have regrettably also developed marvelously clever ways of justifying our behavior whenever it runs afoul of these prescriptions We have for example developed the concept of objectivity to guide scientific pursuits and subsequently established rights which undermine the possibility of ever coming close to attaining the goal of being objective rights which entitle participating scientists to gain personal tangible profits from scientific discoveries Formerly we envisaged gods who kept us in place who reminded us that we were not all powerful or especially wise Now we tend to worship our achievements especially our technological ones and ourselves Mary Midgley aptly names this phenomenon humanolatry We have lost our respect for nature in our enthusiasm for changing it to that which suits our shortsighted ends We must as she says unlearn this way of thinking

Dr. Vagnini's Healthy Heart Plan Frederic J. Vagnini, 2002 Excessive Medical Spending Norman J. Temple, Andrew Thompson, Anwar Khan, 2018-04-19 This work contains a Foreword by Merrill Goozner Author and Director Integrity in Science Center for Science and the Public Interest Washington DC This book exposes why healthcare costs have been rapidly increasing and includes a close examination of over priced drugs It contains a detailed explanation of how the drug industry takes billions of dollars from society each year and proposes radical new ideas to reign in excessive spending on medicine Based on the latest research its unique approach takes into account the pharmaceutical industry healthcare policy and society to offer a wide ranging account It is invaluable for all healthcare professionals especially managers and

doctors and nurses with budgetary responsibilities It will also be useful for researchers policy makers and shapers pharmaceutical company executives and general readers with an interest in medical expenditure While most discussions about the fiscal problems caused by aging societies have focused on pensions and income security the more serious landmine in the road ahead is health care finance which will be in full blown crisis sometime early in the next decade That s why this book is timely Until we learn to talk openly and honestly about what constitutes good health good health care and the best and most cost effective way of achieving both we ll never have an affordable health care system Merrill Goozner in the Foreword
