coaching mentoring by wire choose your own preferred nomenclature there are hundreds perhaps thousands of programs and initiatives across the world Yet there is comparatively little in the way of comparison of good practice or academic evaluation of what does and doesn't work We found numerous individual case studies but a dearth of empirical research and no significant collection of cases to illustrate the diversity of applications Virtual Coach Virtual Mentor provides a wide variety of perspectives on a rapidly growing phenomenon We hope and intend that it should make a timely and significant contribution to good practice and to encouraging more practitioners and their clients and more organizations to experiment with using electronic media to enrich coaching and mentoring The view of ecoaching and e mentoring is firmly one that these new media are less a replacement for traditional face to face than an enhancement of learning alliances in general We see no evidence of fewer face to face coaching or mentoring relationships on the contrary they continue to become more popular and widespread Rather we see that virtual coaching and mentoring both enrich predominantly face to face relationships by connecting partners at times between formal meetings and open up coaching and mentoring to new audiences and new applications
