debate on what the global history curriculum should be and how to teach it *Tip of the Spear* Alfred Peredo Flores,2023-09-15 In *Tip of the Spear* Alfred Peredo Flores argues that the US occupation of the island of Gu han Guam one of the most heavily militarized islands in the western Pacific Ocean was enabled by a process of settler militarism During World War II and the Cold War Gu han was a launching site for both covert and open US military operations in the region a strategically significant role that turned Gu han into a crucible of US overseas empire In 1962 the US Navy lost the authority to regulate all travel to and from the island and a tourist economy eventually emerged that changed the relationship between the Indigenous CHamoru population and the US military further complicating the process of settler colonialism on the island The US military occupation of Gu han was based on a co constitutive process that included CHamoru land dispossession discursive justifications for the remaking of the island the racialization of civilian military labor and the military s policing of interracial intimacies Within a narrative that emphasizes CHamoru resilience resistance and survival Flores uses a working class labor analysis to examine how the militarization of Gu han was enacted by a minority settler population to contribute to the US government s hegemonic presence in Oceania **The History of Music Videos** Hal Marcovitz,2012-06-22 The first official music videos aired in the 1970s but the seeds for making music something more than a pleasure for the ears were planted decades earlier This book covers the birth of the music video starting in the 1920s and 1930s when the first great movie musicals were produced then details how MTV revolutionized the industry by making the film production as important as song production Author Hal Marcovitz explains the various music video styles and differences in production value Concluding chapters highlight the Internet video sensations of today and the interactive features that will likely characterize the genre tomorrow *Handbook of Father Involvement* Natasha J. Cabrera,Catherine S. Tamis-LeMonda,2012-12-06 This book brings together experts from diverse scientific disciplines who share an interest in the topic of father involvement Unlike most books in the field which tend to solely draw from a psychological perspective this Handbook merges theories and research from the unique fields of psychology economics demography sociology anthropology and social policy For the most part research on fathering is motivated by concern for children s well being Social scientists share a core set of questions including Who are fathers What is father involvement and how does it affect children and families What are the determinants of father involvement How do cultural contexts shape fathers roles in families This Handbook sheds light on how a cross disciplinary approach to the study of fathering can advance knowledge about these fundamental questions This integrative approach is fundamental to a comprehensive understanding of human development generally and to fathering more specifically At the core of this book are the goals of describing and understanding the nature antecedents and consequences of father involvement across biological status family structure culture and stages in children s development both within and across scientific boundaries Each of the scientific disciplines represented offers unique methodological and theoretical approaches to the study of fathering and to the interpretation of behavioral patterns that characterize ecological systems that

include as well as extend beyond family units Together the chapters offer provocative and challenging insight into the nature and meaning of fatherhood and father involvement by questioning longstanding assumptions about fathers roles in the lives of families and children in current history Turning the Tables Andrew P.
