

Slinky Wave Lab

Background

A wave can be described as an energy disturbance that travels through a medium from one location to another. Waves, simply put, are **energy moving** from one place to another. As the wave moves through the **medium** (water, slinky, air), energy is being passed from one particle to the next. Waves occur around us every day. Some common places we experience waves are in sound, light, water, and earthquakes.

In addition to being a great toy, the Slinky is an excellent device for creating and studying waves. A slinky can easily demonstrate the two basic types of waves, longitudinal and transverse. In a **longitudinal wave** the particles move parallel to the direction the wave is moving. In a **transverse wave** the particles move at right angles to the direction of wave travel.

There are three basic characteristics used to describe waves.

1. **Frequency** – The number of waves produced in a given time period. This is usually measured in waves per second called Hertz (Hz).
2. **Wavelength** – The length of a wave. This can be measured easily from crest to crest or from trough to trough.
3. **Amplitude** – The height or depth of a wave. The amount of energy carried by a wave is related to amplitude. A high energy wave is characterized by high amplitude; a low energy wave by low amplitude.

Physics Slinky Lab Answers:

A Den of Inquiry Tim Erickson, Bryan Cooley, 2007 Mechanics labs for introductory physics that focus on mathematical models and data analysis Includes instructions for using Logger Pro or Fathom software to do data analysis A CD ROM contains instructional video sample data and template files Hey, Bub! Steve Prater, 2016-10-27 Hey Bub was the familiar greeting Tom Prater used throughout his life He was born with Down syndrome in 1949 and in spite of his disabilities became a beloved and integral part of his family and community While his speech was limited to phrases of just a few syllables he found other ways to communicate and won the hearts of everyone who met him Despite being beset by health concerns and institutional systems that were far from ideal he found resilience and joy This is the story of two brothers their childhood adventures and their lifelong bond In it his brother Steve bunk mate and partner in crime reflects on their time together and the many lessons he is still learning from his older brother When the world feels overwhelming or complex we all seek answers from those who seem to have it all figured out Tom leaves ample clues to happiness through his parables involving marshmallows swing sets bowling and dancing *Phy. Lab and Pocket Lab Wk/Sheets Phy:P&P* Zitzewitz, 1998-07

Answers to the World's Greatest Questions Bjorn Carey, 2017-12-15 Asking questions is an integral part of learning and engaging with the world Complex questions require answers from experts and this book is packed with fascinating trusted information about topics ranging from outer space to the human body Organized by topic in a question and answer format the book is sure to capture readers imaginations while providing background knowledge about how our universe works

2007 Physics Education Research Conference Leon Hsu, Charles Henderson, Laura McCullough, 2007-11-26 This text brings together peer reviewed papers from the 2007 Physics Education Research Conference whose theme was Cognitive Science and Physics Education Research The conference brought together researchers studying a wide variety of topics in physics education including transfer of knowledge learning in physics courses at all levels teacher education and cross disciplinary learning This up to date text will be essential reading for anyone in physics education research **Science on**

the Internet Jazlin V. Ebenezer, Eddy Lau, 2003 The Internet holds great potential for augmenting traditional sources of science information for elementary middle and high school classes But how can teachers mine that information lode effectively appropriately and easily With the second edition of this handy helpful book Here is everything science teachers could want to know about finding reliable science websites on the Internet using the Internet to create hands on science activities and building a science curriculum based on Internet resources For present and future elementary school science teachers who want to achieve Internet literacy themselves and their students **An Introduction to Physics** Harvard

Project Physics, 1968 Glory Days Irene Peterson, 2014-11-20 He Knows His Women New Jersey PI John Preshin takes on all kinds of jobs Discreet inquiries Private investigations Helping women find lost articles of clothing from his office Yup no job too big or too small Now if only he could figure out how to convince the knockout redhead with the very large knife that

he s not breaking into her grandmother Flo s apartment No He s Flo s upstairs tenant In need of a serious cup of coffee Yeah so he s wearing only a towel So what She s Got His Number Liz Atwater isn t about to take her eyes off this one and not just because he s about six feet worth of smirking hunky gorgeousness either She s had her share of bad luck with men and some half naked guy helping himself to your coffee while looking you up and down way is not a good sign Something s going on with Mr John Preshin And Liz intends to do some discreet investigating of her own He d better hang on to that towel Irene is a true Jersey girl having lived in the central part of the state all her life Her fondest memories are of spending summers at the shore She even met her future husband on the boardwalk at Seaside Heights After earning a B A in English and history from Montclair State Irene went on to teach in area schools before marrying her handsome Viking They have two terrific daughters and continue to walk the boards at Seaside at last twice a year **Proof of God** Donna Maskell,2013-05 Lisa works for Dr Jane Kendall a research scientist at a small college After Lisa credits God for helping her win a series of coin toss bets with Mike Dr Kendall s grad student the scientist asks Lisa to be part of a series of experiments to definitively prove the existence of God All involved expect it to lead to nothing but Lisa passes every test perfectly always getting the toss right Now the scientists have to explain the results If there is no God then how did Lisa do it And if there is a God then what does that mean for each of them **Improving Student Achievement Through Daily Activities and Assessments in Introduction to Physics** Kelly Ann Coppins,2010
