Lesson Plans for Beginning Piano Teachers of Beginning Pianists Beverly Grace Joy, 2012-08-24 Lesson Plans is the companion guide for Piano ABC s Level One The purpose of this resource is two fold First to support and guide young teachers working with beginning pianists and next to encourage and facilitate their use of the unique new method Piano ABC s a method for beginning pianists which has proven repeatedly to be very effective with beginners children teens and adults It is intended that young teachers will develop effective teaching habits building on the wealth of pedagogical experience garnered over an extensive teaching career of more than 30 years by the author The presentation

and teacher notes for the first lessons are very detailed and thorough so the first time teacher or one with very limited experience can confidently guide their beginning students through the earliest lesson material Assuming that students will proceed at individual rates of progress after the third lesson plan there is a careful and pedagogically sound presentation of each concept and every piece so the teacher can knowledgeably determine and select appropriate material permitting each student to move forward at his own pace As it has been made available the author has received strongly supportive responses both from young teachers who have valued the step by step detail and from more mature experienced teachers who have expressed their pleasure as it has enhanced their own teaching Piano ABC s Level One is a new and unique approach for beginning pianists The alphabetical approach of Piano ABC s is very easy and seemingly obvious As with many relatively simple but effective solutions it has awaited discovery for many years Students often comment on how logical and easy it is to learn to read notes Rhythm meter studies include easily drawn graphic proportional symbols that students write under notes along with counting as they analyze and assimilate this information The studies in counting are also supported as the student learns to conduct while the teacher plays and then plays while the teacher conducts If you follow these Lesson Plans as your students progress through Piano ABC s Level One they should become confident readers and will often anticipate how to read notes not yet presented And they will not form the useless and obstructive sometimes permanent associations between eye note key and finger that so often result from the plus hundred year old Middle C approach Rather they will learn to read notes according to their staff identity Thus students will not wonder which finger to push or where to put their hands The diverse styles of pieces as well as their creative titles will with perhaps a little prompting encourage students to develop their musical and aesthetic imaginations Read what Megan has to say I absolutely adore the Piano ABCs curriculum I love the piano and I love teaching it but the methods I was using before made it really hard for me as a beginning teacher to easily explain all the things I wanted my students to understand Lesson Plans just tells me what to do I don t have to stress because all the steps are clearly laid out for both my student and me The book teaches me how to teach so I can concentrate on introducing the kids to the beautiful and mysterious world of music **Teaching Piano Pedagogy** Courtney
