Rolls Royce The Engine 6th Edition:

Airline Transport Pilot: Complete Note Collection Carsten Borgen,2020-04-02 In its 6th edition The Airline Transport Pilot Complete Note Collection book is a culmination of more than 10 years of research and writing What started out as a personal note collection for my ATPL studies later became a compilation of information benefiting pilots around the world If you have acquired this book it means you are interested in being the best pilot you can possibly be Being the best pilot requires a continuously never ending dedication to learning and revising from the time you first step into the classroom till the day you retire from aviation As we aspire to become better and safer we must never forget the knowledge and skills we have already acquired Carsten Borgen You will be familiar with most of the information in this book but over time that information will slowly fade away As a professional pilot it is crucial to keep this knowledge sharp but going through all the ATPL subject publications again and again would be an endless task This book is written as a quick reference guide to pilots and aviation enthusiasts in an effort to simplify the process of staying current and revising the theory you have already learned while adding to that knowledge Using this book you can within a couple of hours revise a complete subject matter Whether you have acquired this book to remain current or simply to prepare for exams or interviews this book will stay with you for the rest of your career
