Canadian Annual Review of Politics and Public Affairs 2002 David Mutimer, 2008-03-08 Both at home and abroad the events of 2002 contrasted significantly with those of the previous year something for which most Canadians could be extremely grateful To no ones surprise however the year was dominated by the issues that had captivated the worlds attention at the end of 2001 the attacks on the United States and the subsequent war on terror declared by the Bush Administration Canada had chosen to stand shoulder to shoulder with its southern neighbour in response to those attacks and in 2002 the meaning of that commitment became clear as Canada entered into full scale combat operations in Afghanistan suffered its first casualties and ended the year torn over whether to follow the United States should it choose to take its war to Iraq On the home front a battle of an altogether different magnitude reached a turning point with the seeming resolution of the long running struggle between Prime Minister Jean Chrtien and Minister of Finance Paul Martin even though by years end it was by no means clear who had actually won Similarly a number of the consequences of the 9 11 attacks remained unresolved Bill C 17 had not been passed Ottawa software engineer Maher Arar languished in a Syrian jail where he had been sent by the United States and the war drums were beating loudly around Iraq Continuing in the standard for which it has been acclaimed the Canadian Annual Review of Politics and Public Affairs 2002 presents detailed analyses of events that have come to define our nation in recent years

Canadian Social Policy Anne Westhues, 2006 What are the major issues confronting social policy makers today What theoretical perspectives shape our thinking about the causes of social problems and how we should respond What can we do to influence decision makers about which policy choice to make In this completely revised and updated edition of Canadian Social Policy a new generation of social policy analysts discusses these important questions Readers who are interested in discovering the current policy debates and who want to understand the policy making process at various levels

Howard-Hassmann, Claude E. Welch, Jr., 2011-06-03 Readers in Western developed countries are most familiar with abuses of political and civil rights but the international human rights regime also embraces a set of laws regarding economic rights These rights include the right to work and to just and favorable working conditions the right to join and form trade unions the right to social security specific rights for the family the right to an adequate standard of living including food clothing housing and the continuous improvement of living conditions and the right to the highest attainable standard of physical and mental health In original essays by scholars senior and junior this volume explains how these rights are realized or violated in Canada and the United States Contributors analyze the philosophy law and politics of economic rights and discuss specific issues such as poverty health care and the rights of people with disabilities Central to the problems of both countries are the human rights abuses evident in all contemporary capitalist societies When the inequalities among citizens are not cushioned by a national commitment to economic rights or when governments fail to maintain social safety nets for all citizens economic rights are at risk Contributors consider the problem from the perspective of their own countries Canada the United States and for contrast the Netherlands They do so in order to explore whether their own countries fall short of meeting international standards of economic rights They also address the criticism often made by non Western scholars of human rights that their Western colleagues preach human rights abroad without regard to the human rights flaws at home **Health and Health Care**
