Reset Ronald J. Deibert, 2020-09-29 In the 2020 CBC Massey Lectures, bestselling author and renowned technology and security expert Ronald J. Deibert exposes the disturbing influence and impact of the internet on politics, the economy, the environment, and humanity. Digital technologies have given rise to a new machine-based civilization that is increasingly linked to a growing number of social and political maladies. Accountability is weak, and insecurity is endemic, creating disturbing opportunities for exploitation. Drawing from the cutting-edge research of the Citizen Lab, the world-renowned digital security research group which he founded, Ronald J. Deibert exposes the impacts of this communications ecosystem on civil society. He tracks a mostly unregulated surveillance industry, innovations in technologies of remote control, superpower policing practices, dark PR firms, and highly profitable hack-for-hire services feeding off rivers of poorly secured personal data. Deibert also unearths how dependence on social media and its expanding universe of consumer electronics creates immense pressure on the natural environment. In order to combat authoritarian practices, environmental degradation, and rampant electronic consumerism, he urges restraints on tech platforms and governments to reclaim the internet for civil society.

The Early Literacy Handbook Dominic Wyse, Christine Parker, 2013-03-27 The heart of this book is a new approach to the teaching of language and literacy. Its focus is exemplary classroom practice built on rigorous theory and evidence. The approach combines new theory and dynamic practice in its advocacy for contextualised teaching. This book shows how the teaching of smaller units of language, such as sentences, words, letters, and phonemes, follows naturally from the context of whole texts. The book offers practical examples, photographs from settings, case studies, and action points to help any practitioner working with young children to develop one of the most crucial life skills: advice on how to build on children's motivation using whole texts, clear guidance on phonics teaching in an appropriate context, and a unique blend of new theory and dynamic practice.

Books in Print, 1982 **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library, 1988 *Health Promotion and Disease Prevention for Advanced Practice: Integrating Evidence-Based Lifestyle Concepts* Loureen Downes, Lilly Tryon, 2023-09-29 As healthcare shifts from fee-for-service to value-based care, clinicians need to be adequately prepared to provide evidence-based and cost-effective preventative care using an interprofessional approach. This textbook emphasizes an evidence-based approach to health promotion and disease

prevention by applying environmental behavioral and motivational concepts to the management of health problems related to lifestyle behaviors *Paperbound Books in Print* ,1992
