Tiell, S. Charles Malka, 2024-03-01 How can management research promote a more applicable and a more transparent knowledge for the benefit of individuals and organizations Looming large over this question is the challenge of repurposing management research for improving public good Co edited by R H Tiell and S C Malka the title of the book says it all Amplifying management research for the common good Lessons for curious individuals and organizations Insights from practitioners in the field In this book we sought to bridge the chasm that separates the non academic audience from the typically less accessible scientific journals We attempted to make empirical evidence more inclusive impactful and public good relevant for the non academic stakeholders that live and work in the broader community For that purpose we made available to the reader and to our chapter contributors a collection of published papers some authored by the editors of this book and others co authored with other researchers The papers cover a diverse set of business topics all of which we believe hold much relevance for management today Providing the reader with their insights on subject matter along with lessons and practical recommendations we sought experts in the field that can build on empirical research in various areas of management and then synthesize and broaden it through their expertise and work experience As a trigger we aligned each contributor with one or two empirical papers based on their background interests and professional experience Using the assigned papers as a springboard we asked each author to identify emerging themes around which they can build their chapter We wanted them to think of the book audience non academicians comprised of interested and curious individuals managers and their organizations And we wanted our authors to elaborate on practical lessons suggestions and recommendations that can make a difference in the lives of the book audience Our effort resulted in a collection of chapters

covering a wide range of topics from supply chain challenges in Central America to life changing long term effects of the pandemic from delivery of services for mental health and suicide to logistics capabilities pre post Ivan in the Cayman Islands from the new workplace to labor market shortages and from new workforce service pathways and the optimization of talent to the impact of recent recessions on the youth and the unemployed and the assessment of C suit level leaders We would like to believe that the breadth of the topics covered and the amount of information being disseminated through the book chapters are meaningful practical and relevant to a wide audience of curious readers

ENDORSEMENTS I highly recommend Amplifying Management Research for the Common Good to anyone interested in shaping the workplace of the future Written by a team of experts this book provides a compelling argument for why free and open access to research is essential for improving workforce outcomes The authors explore how the current paywall system limits the dissemination of critical research findings and prevents practitioners and policymakers from accessing the latest insights and innovations As we exit a global pandemic and enter a re shaping of the world of work the nation s talent development ecosystem must innovate and scale to the need By advocating for open access to research the authors advance the forming of a more effective and equitable workforce development system This book is a must read for anyone looking to contribute to that cause Rick Maher Adaptive Human Capital Someone once observed that a crisis is a horrible thing to waste The essence of this advice is that a crisis will always have the potential for the wise and curious to draw lessons and extract prescriptions Tiell and Malka have produced a book reflecting not only their curiosity and wisdom but also their desire to help all who follow their prescriptions The Covid 19 pandemic was a life altering crisis We should be thankful that they have not wasted the crisis thus helping us improve our personal and professional lives Lyle Sussman University of Louisville Employers and employees have experienced an amazing number of challenges and new opportunities during the past 3 years Pre Pandemic employers challenges were primarily focused on low unemployment managing wages and uncertainty for their future workforce Employees were primarily working 9 to 5 in an office building or manufacturing facility and possibly thinking about their futures As our society moves toward a Post Pandemic work environment employers have the same Pre Pandemic challenges but with a workforce that has shrunk faster than anticipated and have adjusted their priorities of work life balance and workplace preferences Whether your responsibilities involve Supply Chain Production Logistics Accounting Finance Training Education Hiring Retaining Firing personnel or you simply are seeking to pursue career and professional growth Everyone has likely experienced some amount of workplace change during the past several years The insights and perspectives shared by each author in this book are reminders of the complex business challenges employers face today and will continue to face in the foreseeable future Thank you for compiling and sharing these insights and perspectives Michael Wolf PrideStaff Louisville

Employment Relations in the 21st Century Valeria Pulignano, Frank Hendrickx, 2019-11-07 It cannot be denied that in recent decades for many if not most people work has become unstable and insecure with serious risk and few benefits for workers As this reality spills over into political and social life it is crucial to interrogate the transformations affecting employment relations shape research agendas and influence the policies of national and international institutions This single volume brings together thirty nine scholars both academics and experienced industrial relations actors in the fields of employment relations and labour law in a forthright discussion of new approaches theories and methods aimed at ameliorating the world of work Focusing on why and how work is changing how collective actors deal with it and the future of work from different disciplinary angles and at an international level the contributors describe and analyse such issues and topics as the following new forms of social protection and representation differences in the power relations of workers and political dynamics balancing protection of workers dignity and promotion of productivity intersection of information technology and workplace regulation how the gig economy undermines legal protections role of professional and trade associations workplace conflict management lay judges in labour courts undeclared work in the informal sector of the labour market work incapacity and disability in coherence of the work related case law of the European Court of Justice and business restructurings Derived from a major conference held in Leuven in September 2018 the book offers an in depth understanding of the changing world of work its main transformations and the challenges posed to classical employment relations theories and methods as well as to labour law With its wide range of insights analysis and reflection this unique contribution to the study of industrial relations offers an authoritative reference guide to scholars policymakers trade unions and business associations human resources professionals and practitioners who need to deal with the future of work challenges

Routledge Handbook on Labour in Construction and Human Settlements Edmundo Werna, George Ofori, 2023-12-12 Routledge Handbook on Labour in Construction and Human Settlements presents a detailed and comprehensive examination of the relationship between labour and the built environment and synergises these critical focus areas in innovative ways This unrivalled edited collection of chapters analyses problems and presents possible solutions related to the employment and conditions of workers in the construction industry It provides comprehensive coverage of the relationship between the global workforce and the built environment and is divided into four topical areas how labour and the built environment relate to development employment generation in the built environment quality of employment in the built environment and the impact of the built environment on labour in other sectors Underpinning the entire book is the

premise that the way the built environment is produced and its main products buildings cities and towns have an impact on large numbers of workers At the same time the quality of the built environment requires construction workers who are well trained and with good working conditions While cities and towns are the engines of economic growth they will not be able to fulfil their economic potential if poverty in the workforce is not addressed Those who are unemployed underemployed or work in unfavourable conditions cannot fully contribute to production and at the same time are limited in their ability to purchase goods and services therefore limiting economic growth and restricting improvements in their living standards In addition investments in infrastructure housing and inner city redevelopment cannot be sustainable if labour issues i e poverty are not addressed This book aims at analysing this complex set of issues comprehensively and will be essential reading to a wide range of researchers across the interdisciplinary intersections of construction business and management economic development urban studies sociology political science and project management New Technology (Routledge Revivals) Greg J. Bamber, Russell D. Lansbury, 2013-12-19 First published in 1989 this book presents a unique comparative perspective on the relationship between technological change and human resource management Following a detailed introduction chapters deal with a variety of issues including managing change industrial democracy and employee involvement gender and structural change International and well renowned authors provide an authoritative analysis which will be of particular interest to students of Business and Management organisational and technological change Economics and Sociology

Corporate Criminal Liability in Environmental Jurisprudence Indrajit Dube, Mia Mahmudur Rahim, 2025-09-08 Environmental jurisprudence is a dynamic field that integrates insights from various disciplines including basic sciences earth science economics and law At its core this discipline emphasizes the importance of enforcing rights as environmental pollution poses significant threats to individuals and society as a whole The repercussions of pollution are not confined to the immediate vicinity they can reverberate across vast regions and impact countless future generations Addressing pollution as a wrong or crime demands a nuanced understanding of the law making the study of environmental jurisprudence essential This book explores corporate polluter liability within the framework of environmental jurisprudence While protective measures for the environment have been embedded in various statutes since the early 20th century the notion of environmental jurisprudence has only recently come to the forefront of legal discourse This field is crucial for safeguarding the natural and legal rights of individuals communities and the state With a comprehensive approach that encompasses both national and international dimensions this book critically engages with the foundational concepts of environmental jurisprudence exposing the rampant environmental violations perpetrated by corporations and outlining how these entities can be held accountable within regulatory frameworks Furthermore it provides a thorough analysis of essential international instruments aimed at combatting corporate induced environmental degradation offering recommendations to elevate corporate criminal liability within the realm of environmental jurisprudence scholarship Highlighting the urgent need for

accountability but also inspiring action toward a sustainable future this book will interest legal scholars researching on criminal liability and environmental law
