(Paideia: Commentaries on the New Testament) Frank J. Matera, 2010-11-01 In this fresh and readable addition to the Paideia series well respected New Testament scholar Frank Matera examines cultural context and theological meaning in Romans Paideia commentaries explore how New Testament texts form Christian readers by attending to the ancient narrative and rhetorical strategies the text employs showing how the text shapes theological convictions and moral habits commenting on the final canonical form of each New Testament book focusing on the cultural literary and theological settings of the text making judicious use of maps photos and sidebars in a reader friendly format Abingdon New Testament Commentaries: Romans Leander E. Keck, 2011-09-01 Like widely differing siblings raised by the same parents each letter produced by Paul has its own distinguishing character For the historically minded critic each letter's unique traits provide important clues for detecting the circumstances in which Paul wrote it as well as what he hoped to achieve with it Scholars assume that by examining the content of the letter the answer they can infer the reader's situation that Paul is addressing the question a method sometimes called mirror reading In the case of Romans however both the particular traits and the overall content are so unusual that scholars continue to debate why Paul wrote precisely this letter and what he hoped to achieve by it in Rome So begins Leander Keck's seminal work on the New Testament book of Romans Keck asserts that because Romans is part of the New Testament we can compare it with the other letters ascribed to Paul as well as with what Acts reports about his message and mission But the first readers of Romans had only this letter they could compare it only with what they may have heard about him While this commentary does from time to time compare Romans with what Paul had said before it concentrates on Romans itself what Paul says in this text should not be conflated with nor inflated into what he thought comprehensively though it is essential to understand that as well We do not really need another major commentary on Romans that loses us in the minutiae of word studies literary parallels sociological and rhetorical hypotheses we have such in plenty The Abingdon series however by its limited size forces the contributor to focus on the primary task of the commentator to clarify the meaning intended or potential of the words of the text and to provide some basic reflection on its continuing significance And that is where Keck excels James D G Dunn Review of Biblical Literature 04 2006

Paul's Use of the Old Testament in Romans 9:19-24 Brian J. Abasciano, 2022-07-14 Brian Abasciano continues his project examining the use of the Old Testament in Romans 9 building upon his previous two volumes and their intertextual methodology This method incorporates into a thorough traditional exegesis a comprehensive analysis of Paul's use of Scripture against the background of interpretive traditions surrounding the texts alluded to with great emphasis placed on analyzing the original contexts of Paul's citations and allusions Such an intertextual exegesis is conducted in Romans 9:19-24 with an awareness of the broader unit of chapters 9-11 especially and also the epistle as a whole Conclusions for the meaning of these passages and their theological significance are drawn
