Subject-catalogue [ed. by F. Vinton]. Princeton univ, libr,1884 In the Grip of Minos Matthew Senior,1994 Following Trent a new mode of confession makes its appearance a baroque discourse in which the heart speaks to the heart Senior argues that Corneille similarly creates a new kind of hero who distinguishes himself as much by the confessional trial of self statement as by his military exploits In the work of Racine Senior notes Minos appears again tormenting the conscience of Phedre Logos of Phenomenology and Phenomenology of The Logos. Book Three Anna-Teresa Tymieniecka,2006-07-19 Situated at the crossroads of nature and culture physics and consciousness cosmos and life history intimately conjoined with time continues to puzzle the philosopher as well as the scientist Does brute nature unfold a history Does human history have a telos Does human existence have a purpose Phenomenology of life projects a new interrogative system for reexamining these questions We are invited to follow the logos of life as it spins in innumerable ways the interplay of natural factors human passions social forces science and experience through interruptions and kairic moments of accomplishment in the human creative imagination and intellectual reasoning There then run a cohesive thread of reality

God and the Knowledge of Reality Thomas Molnar,2021-09-28 Written simply yet comprehensively Molnar's analysis of the history of philosophy and false mysticism leads him to conclude that a return to a moderate realism will save the philosophical enterprise from a series of epistemological and societal absolutes that are embodied in contemporary rationalism and mysticism alike Issues that have been systematically excluded from discourse will have to be reintroduced into the discussion of person and providence Molnar divided the philosophical systems into two groups according to their vision of God and consequently of reality One group removes God from the human scope therefore rendering the world unreal unknowable and meaningless The second group holds that God is immanent in the human soul thereby emphasizing the human attainment of divine status and reducing the extra mental world to a condition of utter imperfection Either way

the result is a pseudo mysticism a denial of the creaturely status of human beings What is most needed Molnar claims is a theory of knowledge whose ideal is not fusion but distinction between God and Man subject and object the self and the society By thus raising the question of philosophy over against magic Molnar seeks to awaken the reader from neo dogmatic assumptions and restore speculative thought to its traditional place *American Ecclesiastical Review* Herman Joseph Heuser,1917
