

Writing a news report

Topic: News reports

Aims:

- To develop students' abilities to organise information and construct it into a text
- To develop students' abilities to revise, redraft and improve their writing
- To develop students' abilities to construct questions

Level: Pre-Intermediate and above

Introduction

During this lesson students will go through the process of developing ideas and collecting and organising information. They will then use the information to create the first draft of an imaginary news article. They will then focus on some key areas of good writing and try to redraft their articles with these in mind.

A variety of follow up tasks are offered after the main plan.

Procedure

Pre writing tasks:

Rationale: This part of the lesson should give students the opportunity to collect information before writing the news report. This should reduce the amount of creativity needed during the actual writing.

- Write up the headline:

Mystery Disappearance of English Teacher: Students Suspected

- Put the students in groups or pairs to try to predict the content of the story and what may have happened to the teacher.
- Get the students to change groups and compare what they think may have happened.
- Give out a pile of about 10 or 15 slips of paper. Tell the students to write a question about the story on each slip of paper and give each one to you. **(You might want to put up some question words on the board to help prompt them. i.e. Who...? What time...? How many...? Etc.)**
- As they give you the slips of paper write very brief answers on them and give them back.

Tip: This works best if the students give each question to you as soon as they write it and you write your answer on their slip of paper and return it immediately. The answers you give them will help to prompt them to produce more questions. If you have a very large class this may not be possible and you may want to stage this over more than one lesson so you have time to write all the replies.
