

A new generation of digital FM transmitter technology using Radio Data Services (RDS, RBDS for the USA) to show information on the in-vehicle radio display, including phonebook contacts, device menus and calling party identification.

Note: The Venturi Mini is designed to provide many features using FM RDS transmission to your in-vehicle radio. It is advisable to read the operating instructions for the specific radio fitted in your vehicle to get the best user experience.

Audio-In and Audio-Out are provided to allow external devices with line audio or headset audio to be connected to the Venturi Mini and stream/transfer content to the in-vehicle audio system. The audio-out connection can also connect hands-free and A2DP audio to the in-vehicle audio system.

A **5V charger** is built in to the Venturi Mini using a USB style connector to charge mobile phones, MP3 players or similar devices. The charging performance is subject to the make and model of the device.

See www.myventuri.com for more information.
