

**Pickle Dissection**  
**6<sup>th</sup> Grade**  
**60 minutes**  
**Castle**

Catch: (5 minutes)

Video: I've Got Two Pickles. Hopefully most students have seen Little Rascals.

Objectives:

- Define: ventral, dorsal, anterior, and posterior.
- Practice safe dissection techniques for 'real' dissections later on.
- Demonstrate neat and accurate recordings.
- Address misconceptions about fruits/vegetables.

Essential Questions

- What do the terms ventral, dorsal, anterior, and posterior mean?
- How can we safely complete dissections?
- Why do you need to take neat and accurate recordings?
- Is a cucumber a fruit or vegetable? Why? What produce do people mistake at the grocery store?

Materials:

- Pickles
- Dissection Trays
- Scalpels
- Computer/Projector/Whiteboard

Differentiation/Special Considerations

- When pairing students up to conduct the dissections, try to pair higher level students with lower level students. This is a good opportunity to build teamwork.

Management/Organization:

- Make sure teammates can stand each other and can be safe.
- Give each team enough space to maintain safety

**Children with Exceptionalities in Canadian Classrooms** Margret Winzer, 1995-12      The BSE Inquiry Nicholas Addison Phillips Baron Phillips of Worth Matravers, Lord Nicholas Phillips, 2000 The BSE Inquiry was set up to establish and review the history of the emergence and identification of BSE and variant CJD in the United Kingdom and of the action taken in response to it up to 20 March 1996 reach conclusions on the adequacy of that response taking into account the state of knowledge at the time and to report on these matters to the Government This executive summary presents the overview of the key findings and conclusions BSE developed into an epidemic as a consequence of an intensive farming practice the recycling of animal protein in ruminant feed The report states that in the years up to March 1996 most of those responsible for responding to the challenge posed by BSE emerge with credit However there were a number of shortcomings in the way things were done The Government took measures to address both the hazard to animal health and human health but these were not always timely nor adequately implemented and enforced The Inquiry found that the rigour with which policy measures were implemented for the protection of human health was affected by the belief of many prior to early 1996 that BSE was not a potential threat to human life The Government was anxious to act in the best interests of human and animal health To this end it sought and followed the advice of independent scientific experts sometimes when decisions could have been reached more swiftly and satisfactorily within government At times officials showed a lack of rigour in considering how policy should be turned into practice to the detriment of the efficacy of the measures taken and on occasion the bureaucratic processes resulted in unacceptable delay in giving effect to policy The report demonstrates that the Government introduced measures to guard against the risk that BSE might be a matter of life and death not merely for cattle but also for humans but the possibility of a risk to humans was not communicated to the public or to those whose job it was to implement and enforce the precautionary measures The Inquiry concludes that the Government did not lie to the public about BSE It believed that the risks posed by BSE to humans were remote The Government was preoccupied with preventing an alarmist over reaction to BSE because it believed that the risk was remote It is stated that the campaign of reassurance was a mistake When on 20 March 1996 the Government announced that BSE had probably been transmitted to humans the public felt that they had been betrayed Confidence in government pronouncements about risk was a further casualty of BSE Cases of a new variant of CJD vCJD were identified by the CJD Surveillance Unit and the conclusion that they were probably linked to BSE was reached as early as was reasonably possible The link between BSE and vCJD is now clearly established though the manner of infection is not clear This volume is accompanied by a CD ROM which contains the Inquiry's full report      *The Silent Vow* Gary Drewes, 2003-11 This how to manual teaches a useful skill in psychic sensing called Directed Intuition It involves merely

shifting your awareness much like you routinely shift attention to recall a memory You can use the skill at any time with eyes open and engaged in activities The unique training method has proven effective both in classes and self instruction The author devised the concept in the mid 1960s after years of developing his own sensing ability by experiment and by 69 began teaching classes for several years This updated book first edition 1970 has abundant examples of remarkable results and swift learning even some within a few minutes The lessons are a third of the text The rest discusses expected achievements mental impressions during training and applications for the skill in diverse fields including business foreign affairs and relationships This book is intended for 1 people desiring to enrich their lives with psychic insight 2 disciplined researchers into psychic phenomena and 3 investigators of subjects where needed data cannot be obtained by other means **The BSE Inquiry** Nicholas Phillips,2000 **Brooklyn Roots** Estelle B.
