JS Bruner

Obedience To Authority Current Perspectives On The Milgram Paradigm:

Obedience to Authority Thomas Blass, 1999-11-01 Stanley Milgram's experiments on obedience to authority are among the most important psychological studies of this century. Perhaps because of the enduring significance of the findings, the surprising ease with which ordinary persons can be commanded to act destructively against an innocent individual by a legitimate authority, it continues to claim the attention of psychologists and other social scientists as well as the general public. The study continues to inspire valuable research and analysis. The goal of this book is to present current work inspired by the obedience paradigm. This book demonstrates the vibrancy of the obedience paradigm by presenting some of its most important and stimulating contemporary uses and applications. Paralleling Milgram's own eclecticism in the content and style of his research and writing, the contributions comprise a potpourri of styles of research and presentation ranging from personal narratives through conceptual analyses to randomized experiments. *American Methods* Kristian Williams, 2006 A powerful indictment. *American Methods* is not about Abu Ghraib; this is a book about the USA. **Personality and Social Psychology at the Interface** Marilynn B. Brewer, 2014-10-13 This special issue provides a view of the past, present, and future of the field of personality and social psychology as an interdisciplinary endeavor. Collectively, the articles illustrate the vital contributions that can be made pursuing the reciprocal connections between personality, social psychology, and psychobiology, developmental psychology, comparative psychology, and evolutionary biology, clinical and health psychology, communication studies, organizational studies, and systems theory and cultural anthropology. The papers reflect the collective past and present of the field and set an agenda for a collective future. The Successes and Failures of Whistleblower Laws Robert G. Vaughn, 2012-01-01 A new roadmap for understanding the diverse perspectives and disparate bodies of law involved in any legal regime aimed at encouraging people in organisations to speak up about wrongdoing, making it possible for them to do so, and supporting and protecting them when they do. More than just a rich and readable history of whistleblowing laws in the USA and around the world, steeped in Robert Vaughn's personal experience as a lawyer and researcher over a 40-year period, this book stands to help solve some of the greatest conundrums in this vital area of legal regulation, one of the most complex in modern society but one of the most crucial to integrity, accountability, and organisational justice in all institutions. Compulsory reading for all policymakers, regulators, corporate leaders, researchers, and activists engaged in improvement and implementation of public interest whistleblowing laws. A J Brown Griffith University and Transparency International Australia. Unlike other books on whistleblowing that simply describe and analyze whistleblowing laws, Robert Vaughn's new book provides an in-depth and unique historical account of the roots of the whistleblowing movement in such disparate events as the Mai Lai massacre, the civil rights movement, and the experiments of Stanley Milgram. As important as that history, he then uses that history to illuminate the competing perspectives and pressures that influenced the passage and interpretation of modern whistleblower laws. Vaughn provides a first-rate account of the varied

and complex reasons for the successes and failures of these laws during the last forty years Richard Moberly University of Nebraska College of Law US Drawing on literature from several disciplines this enlightening book examines the history of whistleblower laws throughout the world and provides an analytical structure for the most common debates about the nature of such laws and their potential successes and failures The author explores the relationship between the actions of whistleblowers and the character of laws protecting them as well as their administration and enforcement The book considers the role of civil society groups in the successes of whistleblower laws and how current controversies reflect issues attached to these laws over half a century This study contains perspectives from which successes and failures can be evaluated and will appeal to policy makers scholars whistleblower advocacy and other civil society groups as well as anyone with a general interest in the subject

The New Demons Simona Forti, 2023-05-25 The Italian philosopher and author of *Totalitarianism* rescues the concept of evil as an element necessary for guidance in political reflection Dialogue Canadian Philosophical Review As long as we care about suffering in the world says political philosopher Simona Forti we are compelled to inquire into the question of evil But is the concept of evil still useful in a postmodern landscape where absolute values have been leveled and relativized by a historicist perspective Given our current unwillingness to judge others what signposts remain to guide our ethical behavior Surveying the nineteenth and twentieth century Western philosophical debates on evil Forti concludes that it is time to leave behind what she calls the Dostoevsky paradigm the dualistic vision of an omnipotent monster pitted against absolute helpless victims No longer capable of grasping the normalization of evil in today's world whose structures of power have been transformed this paradigm has exhausted its explanatory force In its place Forti offers a different genealogy of the relationship between evil and power one that finally calls into question power's recurrent link to transgression At the center of contemporary evil she posits the passive attitude towards rule following the need for normalcy and the desire for obedience nurtured by our contemporary mass democracies In our times she contends evil must be explored in tandem with our stubborn desire to stay alive at all costs as much as with our deep need for recognition the new modern absolutes A courageous book *The New Demons* extends an original inspiring call to ethical living in a biopolitical age

Encyclopedia of Race, Ethnicity, and Society Richard T. Schaefer, 2008-03-20 This ambitious undertaking touches all bases is highly accessible and provides a solid starting point for further exploration School Library Journal This three volume reference presents a comprehensive look at the role race and ethnicity play in society and in our daily lives The Encyclopedia of Race Ethnicity and Society offers informative coverage of intergroup relations in the United States and the comparative examination of race and ethnicity worldwide Containing nearly 600 entries this resource provides a foundation to understanding as well as researching racial and ethnic diversity from a multidisciplinary perspective Key Features Describes over a hundred racial and ethnic groups with additional thematic essays discussing broad topics that cut across group boundaries and impact society at large Addresses other issues of inequality that often intersect with the

The

Social Psychology of Good and Evil, First Edition Arthur G. Miller, 2013-10-24 This compelling work brings together an array of distinguished scholars to explore key concepts theories and findings pertaining to some of the most fundamental issues in social life the conditions under which people are kind and helpful to others or conversely under which they commit harmful even murderous acts Covered are such topics as the complex interaction of individual societal and situational factors underpinning good or evil behavior the role of guilt and the self concept and issues of responsibility and motivation including why good people do bad things The volume also examines whether aggression and violence are inescapable aspects of human nature and how cooperative interaction can break down stereotyping and discrimination

American Dreams and Nazi Nightmares Kirsten Fermaglich, 2007 A unique contribution to America's encounter with Holocaust memory that links the use of Nazi imagery to liberal politics

The Oxford Handbook of Genocide Studies Donald Bloxham, A. Dirk Moses, 2010-04-15 Genocide has scarred human societies since Antiquity In the modern era genocide has been a global phenomenon from massacres in colonial America Africa and Australia to the Holocaust of European Jewry and mass death in Maoist China In recent years the discipline of genocide studies has developed to offer analysis and comprehension The Oxford Handbook of Genocide Studies is the first book to subject both genocide and the young discipline it has spawned to systematic in depth investigation Thirty four renowned experts study genocide through the ages by taking regional thematic and disciplinary specific approaches Chapters examine secessionist and political genocides in modern Asia Others treat the violent dynamics of European colonialism in Africa the complex ethnic geography of the Great Lakes region and the structural instability of the continent's northern horn South and North America receive detailed coverage as do the Ottoman Empire Nazi occupied Europe and post communist Eastern Europe Sustained attention is paid to themes like gender memory the state culture ethnic cleansing military intervention the United Nations and prosecutions The work is multi disciplinary featuring the work of historians anthropologists lawyers political scientists sociologists and philosophers Uniquely combining empirical reconstruction and conceptual analysis this Handbook presents and analyses regions of genocide and the entire field of genocide studies in one substantial volume

Social Psychology Randal W. Summers, 2016-12-12 This book provides an introduction to social psychology that covers its history theories and core concepts It explains intrapersonal how others influence our views about ourselves and interpersonal how we think about and act toward other people applications of this discipline in today's society Human beings are social by nature Because of this the people around us have a profound impact on how we think about ourselves and others from our sense of self esteem to our opinions and attitudes to our interactions in a group setting Social Psychology How Other People Influence Our Thoughts and Actions describes these subtle but powerful effects in our daily lives offering a complete and balanced view of the topic Readers will discover the history of social psychology grasp its theories and core concepts learn about important issues and debates related to this topic and see how these ideas are directly applicable to therapy and other real world situations Chapters cover how an individual's self concept

is developed and the various social forces on it how a social psychology experiment may be conducted and examples of social psychology in everyday life such as group dynamics and cultural phenomena Readers will also see how social psychology plays a role in our criminal justice system including in the context of the prison system population in the cultural issues associated with Latino and Native American populations in our social collective concern about mass shootings epidemics and terrorism and in the dynamics processes and tactics of a nationwide presidential election campaign seeking to influence the masses

Writing the Holocaust Jean-Marc Dreyfus, Daniel Langton, 2011-09-01 Writing the Holocaust provides students and teachers with an accessibly written overview of the key themes and major theoretical developments which continue to inform the nature of historical writing on the Holocaust Holocaust studies is at a paradox while historians of the Holocaust defend it as a legitimate and well defined area of research they write against a complex political and ideological background that undermines any claim for it as a normative field of historical study Writing the Holocaust offers a lucid enquiry into this complex field by demonstrating the impact of current theories from the humanities and social sciences upon the treatment of Holocaust studies

The Man Who Shocked The World Thomas Blass, 2009-02-24 The creator of the famous Obedience Experiments carried out at Yale in the 1960s and originator of the six degrees of separation concept Stanley Milgram was one of the most innovative scientists of our time In this sparkling biography the first in depth portrait of Milgram Thomas Blass captures the colorful personality and pioneering work of a social psychologist who profoundly altered the way we think about human nature Born in the Bronx in 1933 Stanley Milgram was the son of Eastern European Jews and his powerful Obedience Experiments had obvious intellectual roots in the Holocaust The experiments which confirmed that normal people would readily inflict pain on innocent victims at the behest of an authority figure generated a firestorm of public interest and outrage proving as they did that moral beliefs were far more malleable than previously thought But Milgram also explored other aspects of social psychology from information overload to television violence to the notion that we live in a small world Although he died suddenly at the height of his career his work continues to shape the way we live and think today Blass offers a brilliant portrait of an eccentric visionary scientist who revealed the hidden workings of our very social world

Empirical Political Analysis Richard C. Rich, Craig Leonard Brians, Jarol B. Manheim, Lars Willnat, 2018-06-12 Empirical Political Analysis introduces readers to the foundations of social science research Organized around the stages of the research process this textbook prepares readers to conduct both quantitative and qualitative research from the formation of theory through the design of research projects to the collection of data and the analysis of results It offers a clear and concise presentation of basic concepts and tools that can be applied in a wide range of research settings and highlights ethical conduct in the research process It will help you both to achieve sound results in your own research and to critically evaluate research presented by others Key features Offers comprehensive coverage of quantitative and qualitative research methods in political science this book is one of the key texts in the field of political research methods since it was first published over
