Ghosh,Mark Prelas,2009-06-17 In the lifetimes of the authors the world and especially the United States have received three significant wake up calls on energy production and consumption The first of these occurred on October 15 1973 when the Yom Kippur War began with an attack by Syria and Egypt on Israel The United States and many western countries supported Israel Because of the western support of Israel several Arab oil exporting nations imposed an oil embargo on the west These nations withheld five million barrels of oil per day Other countries made up about one million barrels of oil per day but the net loss of four million barrels of oil production per day extended through March of 1974 This represented 7% of the free world's i.e excluding the USSR oil production In 1972 the price of crude oil was about 3 00 per barrel and by the end of 1974 the price of oil had risen by a factor of 4 to over 12 00 This resulted in one of the worst recessions in the post World War II era As a result there was a movement in the United States to become energy independent At that time the United States imported about one third of its oil about five million barrels per day After the embargo was lifted the world chose to ignore the wake up call and went on with business as usual *Engineering Mechanics* G. S. Sawhney,2010 The book presents

succinct coverage of the theory definitions and formulae It is well supported by plenty of clear cut diagrams suitable examples and worked problems in order to make the underlying principles comprehensive *Fundamentals of Power Plant Engineering* R. Yadav, Sanjay, Rajay, 2022-03-31 The purpose of this book is to present a thorough treatment of Fundamental of Power Plant Engineering Conventional and Non Conventional Renewal from working design applications operations control and maintenance point of view This book covers the syllabus of all universities and abroad The book is also highly suitable for all competitive examinations like civil services engineering services and PSUs of central and state governments
