Origins Welfare State V9 Nicholas Deakin, 2021-12-16 First published in 2004 Consisting of both shorter pieces and reprints of entire books this set restores to circulation a number of key texts from the debate about the future of welfare that took place in Britain following the depression The collection covers the following areas The period during which the country felt the full impact of the world depression A number of solutions were put forward during this time to address the arising issues in particular the consequences of mass unemployment The approaches ranged from orthodox Marxism to modified conservatism and middle opinion A key feature of the debate was the concept of planning as a device to enable governments to cope with economic and social problems A range of different ideas were widely canvassed during the war years It was considered that successful conduct of war could then be applied to the problems of peace This set resurrects certain proposals influential in the climate of the times which have subsequently dropped out of circulation Early assessments dealing with the implications of Welfare State legislation are also included Although the implementation of the welfare programme was in effect a bipartisan process it did not take long for doubts to be expressed some of which were directed at the principles on which the Welfare State was being constructed Volume 9 includes The Unserving state by George Watson et al
