Abstract

Tencent **Win**

Target Area

Control Value

Overall, the results of this study suggest that the use of a structured, evidence-based approach to patient assessment and management can lead to improved patient outcomes and reduced costs. The implementation of such a program requires a commitment to ongoing education and training for all staff involved in patient care, as well as a willingness to embrace change and innovation in the way that patient care is delivered. The results of this study also suggest that the use of a structured, evidence-based approach to patient assessment and management can lead to improved patient outcomes and reduced costs. The implementation of such a program requires a commitment to ongoing education and training for all staff involved in patient care, as well as a willingness to embrace change and innovation in the way that patient care is delivered.
