Ruptures Martin Holbraad, Bruce Kapferer, Julia F. Sauma, 2019-06-25 Ruptures brings together leading and emerging international anthropologists to explore the concept of rupture Understood as radical and often forceful forms of discontinuity rupture is the active ingredient of the current sense of a world in turmoil lying at the heart of some of the most defining experiences of our time the rise of populist politics the corollary impulse towards protest and even revolutionary change as well as moves towards violence and terror and the responses these moves elicit Rupture is addressed in selected ethnographic and historical contexts images of the guillotine in the French revolution reactions to Trump's election in the USA the motivations of young Danes who join ISIS in Syria butterfly effect activism among environmental anarchists in northern Europe the experiences of political trauma and its repair through privately sponsored museums of Mao's revolution

in China people's experience of the devastating 2001 earthquake in Gujarat the inner rupture of Protestant faith among Danish nationalist theologians and the attempt to invent ex nihilo an alphabet for use in Christian prophetic movements in Congo and Angola Ruptures takes in new directions broader intellectual debates about continuity and change In particular by thematising rupture as a radical sometimes violent and even brutal form of discontinuity it adds a sharper critical edge to contemporary discourses both in social theory and public debate and policy The Guide to Clinical Preventive Services The Guide to Clinical Preventive Services, 2006 This compact portable guick reference handbook from the U S Preventive Services Task Force offers evidence based recommendations on the use of clinical preventive services in adult and pediatric patient care It provides specific guidelines for counseling testing and interventions based on age gender and risk factors for disease A letter grading system is used to indicate which preventive services are strongly recommended recommended not recommended or not supported by sufficient evidence Topics covered include cancer screening heart and vascular diseases infectious diseases injury and violence mental health and substance abuse metabolic nutritional and endocrine conditions musculoskeletal conditions and obstetric and gynecologic conditions Mastering Endovascular Techniques George Geroulakos, Efthymios Avgerinos, Jean Pierre Becquemin, Gregory C. Makris, Alberto Froio, 2024-04-29 This book provides a detailed practically applicable guide to using the latest endovascular techniques Chapters feature detailed step by step instructions on how to perform procedures relevant for instances of disorders including cerebrovascular disease splachnic arteries and aortic aneurysms Multiple choice questions are provided throughout to enable the reader to identify the points covered Mastering Endovascular Techniques Tips and Tricks in Endovascular Surgery describes the latest endovascular methodologies and features detailed insight on how to apply these techniques into day to day clinical practice

Remaking Indigeneity in the Amazon Esteban Rozo,2023-09-28 Drawing on archival and ethnographic work this book analyzes how indigeneity Christianity and state making became intertwined in the Colombian Amazon throughout the 20th century At the end of the 19th century the state gave Catholic missionaries tutelage over Indigenous groups and their territories but in the case of the Colombian Amazon this tutelage was challenged by evangelical missionaries that arrived in the region in the 1940s with different ideas of civilization and social change Indigenous conversion to evangelical Christianity caused frictions with other actors while Indigenous groups perceived conversion as way of leverage with settlers This book shows how evangelical Christianity shaped new forms of indigeneity that did not coincide entirely with the ideas of civilization or development that Catholic missionaries and the state promoted in the region Since the 1960s the state adapted development policies and programs to Indigenous realities and practices while Indigenous societies appropriated evangelical Christianity in order to navigate the changes brought on by colonization modernity and state formation This study demonstrates that not all projects of civilization were the same in Amazonia nor was missionization of Indigenous groups always subordinate to the state or resource extraction

Endovascular and Open Vascular Reconstruction

Singh Hans,2017-11-22 In recent years the growth in endovascular procedures has meant that vascular trainees may not gain sufficient experience to be competent in open vascular reconstructions following completion of their training At the same time many senior surgeons have somewhat limited experience of endovascular techniques This book will assist junior and senior surgeons and trainees in performing all types of vascular reconstructions A key feature of the book is its clear illustrations accompanied by pertinent case examples from vascular registries so that readers can perform these operations with clear understanding of anatomical exposure and dissection simplifying the conduct of the procedure **Transnational Transcendence** Thomas J. Csordas,2009 This innovative collection examines the transnational movements effects and transformations of religion in the contemporary world offering a fresh perspective on the interrelation between globalization and religion Taken as a whole Transnational Transcendence challenges some widely accepted ideas about this relationship in particular that international contemporary religious manifestations are secondary to the primary economic phenomenon of globalization P 4 of cover
