The Russian Revolution: Causes, Conflicts, and Consequences

In the early 20th century, Russia was a sprawling empire ruled by Tsar Nicholas II, whose reign symbolized autocratic power and a rigid social hierarchy. Despite pockets of modernization, the majority of the population lived in poverty, especially in rural areas. Worker discontent brewed in industrial centers such as St. Petersburg, fueled by grueling labor conditions, low wages, and minimal political

Russian Revolution Guided Activity:

Trotsky and the Russian Revolution Geoffrey Swain, 2014-02-24 Supporters of Stalin saw Trotsky as a traitor and renegade Trotsky's own supporters saw him as the only true Leninist In *Trotsky and the Russian Revolution* Geoffrey Swain restores Trotsky to his real and central role in the Russian Revolution In this succinct and comprehensive study Swain contests that In the years between 1903 and 1917 it was the ideas of Trotsky rather than Lenin which shaped the nascent Bolshevik Party and prepared it for the overthrow of the Tsar During the autumn of 1917 workers supported Trotsky's idea of an insurrection carried out by the soviet rather than Lenin's demand for a party orchestrated coup d'etat During the Russian Civil War Trotsky persuaded a sceptical Lenin that the only way to victory was through the employment of officers trained in the Tsar's army As well as examining Trotsky's critique of Stalin's Russia in the 1930s this seminar reader probes deeper to explore the ideas which drove Trotsky forward during his years of influence over Russia's revolutionary politics exploring such key concepts as how to construct a revolutionary party how to stage a successful insurrection how to fight a revolutionary war and how to build a socialist state *The Russian Revolution in Retreat, 1920-24* Simon Pirani, 2008-03-03 The Russian revolution of 1917 was a defining event of the twentieth century and its achievements and failures remain controversial in the twenty first This book focuses on the retreat from the revolution's aims in 1920-24 after the civil war and at the start of the New Economic Policy and specifically on the turbulent relationship between the working class and the Communist Party in those years It is based on extensive original research of the actions and reactions of the party leadership and ranks of dissidents and members of other parties and of trade union activists and ordinary factory workers It discusses working class collective action before during and after the crisis of 1921 when the Bolsheviks were confronted by the revolt at the Kronstadt naval base and other protest movements This book argues that the working class was politically expropriated by the Bolshevik party as democratic bodies such as soviets and factory committees were deprived of decision making power it examines how the new Soviet ruling class began to take shape It shows how some worker activists concluded that the principles of 1917 had been betrayed while others accepted a social contract under which workers were assured of improvements in living standards in exchange for increased labour discipline and productivity and a surrender of political power to the party **The Russian Revolution** Richard Pipes, 2011-07-13 A groundbreaking inclusive history of the Russian Revolution for those who want to discover what really happened to Russia The New York Times Book Review A monumental study Wall Street Journal enthralling in its narrative of a movement whose purpose in the words of Leon Trotsky was to overthrow the world The Russian Revolution draws conclusions that have aroused great controversy Richard Pipes argues convincingly that the Russian Revolution was an intellectual rather than a class uprising that it was steeped in terror from its very outset and that it was not a revolution at all but a coup d'etat the capture of governmental power by a small minority **"Left Wing" Communism** Vladimir Il'ich Lenin, 1921 *Jewish Renaissance in the Russian Revolution*

Kenneth B. Moss, 2010-02-28 Between 1917 and 1921 as revolution convulsed Russia Jewish intellectuals and writers across the crumbling empire threw themselves into the pursuit of a Jewish renaissance Here is a brilliant revisionist argument about the nature of cultural nationalism the relationship between nationalism and socialism as ideological systems and culture itself the axis around which the encounter between Jews and European modernity has pivoted over the past century **Biz-War and the Out-of-Power Elite** Jarol B. Manheim, 2004-04-26 The book captures in just a few pages one of the least known but most important political trends of the last quarter century the rebuilding of the American political Left through the reverse engineering of the power structure the use of attacks on co Documents of Russian History, 1914-1917 Frank Alfred Golder, 1927 Turkey's Violent Formation Hans-Lukas Kieser, 2024-08-22 The decade of war and violence culminating in the Conference of Lausanne was formative for the modern state of Turkey as it was for interwar Europe s diplomacy and appeasement Yet the currents that gave rise to the defining events of the period ultranationalism imperial proto fascism and pan Islamism have yet to be definitively integrated into historiography The case studies in this book reappraise key events concepts and individuals in late Ottoman and early Republican Turkey Divided into four parts the book first examines squandered opportunities for democratic reform of the multi ethnic empire as well as the emergence of extreme politico religious ideology in the late Ottoman period It then examines the continuity of these currents in Kemalist Turkey in case studies including anti Kurdish campaigns and biographical studies of key actors insiders and ideologues such as Ziya G kalp Cavid Bey Riza Nur and Mahmut Bozkurt The final part of the book explores the legacy of Turkey s violent formation vis vis its relations with wartime ally Germany in the context particularly of the Armenian genocide Together the chapters in this book emphasise the legacy of foundational violence which marked the formation of authoritarian modern Turkey while highlighting the need for new inclusive democratic social contracts An Introduction to Russian History Robert Auty, Dimitri Obolensky, 1976 **Communism. Selections from Marx, Engels, Kropotkin, Lenin, Stalin, Trotsky** Karl Marx, Friedrich Engels, Peter Kropotkin, Vladimir Lenin, Joseph Stalin, Leon Trotsky, 2025-03-26 Communism is a left wing to far left sociopolitical philosophical and economic ideology within the socialist movement whose goal is the establishment of a communist society a socioeconomic order centered around common ownership of the means of production distribution and exchange that allocates products to everyone in the society Communist society also involves the absence of private property social classes money and the state Communists often seek a voluntary state of self governance but disagree on the means to this end This reflects a distinction between a more libertarian approach of communization revolutionary spontaneity and workers self management and a more vanguardist or Communist party driven approach through the development of a constitutional socialist state followed by the withering away of the state As one of the main ideologies on the political spectrum communism is placed on the left wing alongside socialism and communist parties and movements have been described as radical left or far left Contents Karl Marx Manifesto of the Communist Party The Class Struggles in France The

Winzeler,2012-04-12 Drawing from ethnographic examples found throughout the world this revised and updated text offers an introduction to what anthropologists know or think about religion how they have studied it and how they have interpreted or explained it since the late nineteenth century Robert Winzeler s balanced consideration of classic topics basic concepts and new developments in the anthropological study of religion moves beyond cultural anthropology and ethnography to gather information from physical anthropology prehistory and archaeology Written as a sophisticated but accessible treatment of the issues Anthropology and Religion is a key text for upper division courses **The State, Identity, and the National Question in China and Japan** Germaine A. Hoston,2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model *The Origins of the French Labor Movement* Bernard H. Moss,2024-06-14 Many historians have examined the French labor movement but few have gone beyond chronicling unions strikes and personalities to undertake a concrete analysis of workers aims in their historical context Searching for what Marx called the real movement of the working class Bernard H Moss presents a sophisticated revisionist interpretation that uncovers a core ideology of social vision underlying the many changes and variations in French socialism To define this ideology and delineate its social base

Moss cuts through conventional distinctions between artisans and proletarians and between anarchism and socialism to derive an intermediate category the federalist trade socialism of skilled workers Originally manifested in the trade movement for producers associations and cooperatives this socialism eventually found revolutionary expression in Bakuninism possibilism Allemanism and revolutionary syndicalism The social base of this movement was the skilled craftsmen undergoing a process of proletarianization In *The Origins of the French Labor Movement* Moss rehabilitates ideology both as a vital force in history and as a serious subject for scientific history He proposes important revisions in our understanding of French politics and society in the nineteenth century and suggests a new approach to socialist ideology not as abstract theory but as the result of historical experience and process This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1976
