## **O Level Grade Boundaries 2013:**

**2012 GCSE English results** Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

**Reshaping the University** David Palfreyman, Ted Tapper, 2014 The global economic crisis has required governments across the globe to reconsider their spending priorities It is within this demanding economic context that higher education systems have been steadily restructured with in many ways the English model in the vanguard of change This book focuses in particular upon the policy of removing almost entirely public support for the payment of student fees This has emerged from a steady process of change which has broad political support and is underwritten by the idea that higher education is now seen more as a private than a public good As this shift has occurred not a new innovation but rather a return to what once prevailed as more of a market in English higher education so the relationship between government and the higher education has evolved with the latter now attempting to steer the development of the system through a state regulated market The book has a strong comparative dimension that draws upon US higher education to illustrate both the possible advantages and potential hazards to the marketization strategy It concludes that any such strategy needs to be accompanied by state regulation if it is to function effectively particularly to stimulate price competition encourage innovation from new entrants and provide consumer protection for students paying high fees

**The Coalition Effect, 2010-2015** Anthony Seldon, Mike Finn, Ilias Thoms, 2015-03-26 The essential verdict on Britain's first coalition government since the Second World War delivered by an unrivalled team of experts

**Education System Design** Brian Hudson, Marilyn Leask, Sarah Younie, 2020-11-26 This book highlights decisions governments have to make about their public education systems the options they have before them and the consequences of their decisions As well as covering issues such as values curriculum teacher training structures and so on the book addresses education planning for epidemics pandemics and

disasters Education systems provide the foundations for the future wellbeing of every society yet existing systems are a point of global concern Education System Design is a response to debates in developing and developed countries about the characteristics of a high quality national education service It questions what makes a successful system of education With chapters that draw on experience in education systems around the world each one considers an element of a national education service and its role in providing a coherent and connected set of structures to ensure good education for all members of society Key topics include Existing education systems and what a future system might look like Inclusion and social justice Leadership and teacher education Policy options and the consequences of policy changes This book suggests an education system be viewed as an ecosystem with interdependencies between many different components needing to be considered when change is contemplated It is a vital book for any stakeholders in educational systems including students teachers and senior leaders It would be particularly useful to policy makers and those implementing policy changes

**"Code of Massachusetts regulations, 2013"** ,2013 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 **World Yearbook of Education 2013** Terri Seddon,John Levin,2012-12-12 Educators professionalism and politics offers ways of understanding how and with what consequences national systems of education and the work of education professionals are being reregulated in the context of contemporary global transitions Globalization does not just create transnational organizations relations and practices it also transforms nation states by creating more complex education spaces that impinge on the work of educators and the learning that they enable globally nationally and locally This volume of the World Yearbook of Education focuses firmly on the educators themselves It documents the way educators encounter and renegotiate ideas and practices that travel globally as they seek to enact their established professional projects This framing recognises that educators spaces work and identities are historically anchored in national institutional trajectories but are both disturbed and renewed as globally mobile ideas and practices touch down within national systems of education The chapters examine the effect of global transitions on educators and education and offers new perspectives on educational work in different parts of the world today They challenge bleak assessments of teacher de professionalization and idealistic narratives about professional development Chapters highlight the significance of educators occupational boundary work and the resources and networks they mobilize through their professional projects as they make and remake education in national spaces The volume tracks Re regulatory trajectories evident in national education spaces and their impact on educators The way educators renegotiate globally mobile ideas practices and national institutional trajectories as they mediate global formations emerging in the national space and The kinds of mediations and resources that enable education professionals to engage with the politics of professionalization This volume of The World Yearbook of Education will be of great interest to Education researchers graduate students teacher educators and education policy makers Terri Seddon is Professor of Education at Monash
