Obsessed Part Three The Obsessed Series Book English Edition:

The Power of Creativity (Book 3) Bryan Collins, 2017-01-31 Is there a hidden powerful secret to becoming more creative and finding success with your work Did creative masters like Wolfgang Amadeus Mozart and Henri Matisse possess an abundance of talent the rest of us can only dream of This book is the third in a three part series about the Power of Creativity for new writers musicians filmmakers artists It s for anyone who has a great idea or even just a little one but they re finding it difficult to act on their idea do deep work and finish their most important creative projects In this book you will discover these strategies 1 Immerse Yourself in Your Work There s a mindset successful creative people adopt too Call it flow call it a fugue call it total immersion I ll show you how creative masters turn on and off this mindset at will and how you can do the same 2 Seek Out Solitude Extroverts thrive when working in the company of others but many writers musicians painters and artists do their best work alone So how can you create alone and still feel positive about your work and the self 3 Be Obsessed It takes a level of focus and even obsession to see a creative project like writing a book or composing an album from beginning to end If you re alarmed know that obsession is something you can embrace rather than fear with the right approach 4 Root Out Perfectionism Like a Weed Perfectionism is a nasty weed that could be choking the life out of your ideas I ll guide you through the types of perfectionism to watch out for and then root them out 5 Practice Your Craft Deliberately What is deliberate practice It s not enough to just practice writing drawing or painting every day You must be smart about the techniques you use for learning practicing and problem solving 6 Cut the Cord For every creative person there comes a time when you must focus on what s important commit to doing the work and cut the rope In this personal story I explain what this looks like 7 Fall Forwards Making messy mistakes is part of the creative process The trick is to getting positive results is to test your ideas sooner and learn from your mistakes If you want to discover how to conquer procrastination finish your work and find success download a sample or buy now *Prophets Facing Backward* Meera Nanda, 2003 The leading voices in science studies have argued that modern science reflects dominant social interests of Western society Following this logic postmodern scholars have urged postcolonial societies to develop their own alternative sciences as a step towards mental decolonization These ideas have found a warm welcome among Hindu nationalists who came to power in India in the early 1990s In this passionate and highly original study Indian born author Meera Nanda reveals how these well meaning but ultimately misguided ideas are enabling Hindu ideologues to propagate religious myths in the guise of science and secularism At the heart of Hindu supremacist ideology Nanda argues lies a postmodernist assumption that each society has its own norms of reasonableness logic rules of evidence and conception of truth and that there is no non arbitrary culture independent way to choose among these alternatives What is being celebrated as difference by postmodernists however has more often than not been the source of mental bondage and authoritarianism in non Western cultures The Vedic sciences currently endorsed in Indian schools colleges and the mass media promotes the same elements of orthodox Hinduism that

have for centuries deprived the vast majority of Indian people of their full humanity By denouncing science and secularization the left was unwittingly contributing to what Nanda calls reactionary modernism In contrast Nanda points to the Dalit or untouchable movement as a true example of an alternative science that has embraced reason and modern science to challenge traditional notions of hierarchy
