Attention then shifts to operating system internals, modes such as sleep and startup and the various file systems and their parameters that are available for developers to adjust. Also included is a reference of API calls, guidance on input and output, documentation of serial, audio, graphic and other interfaces. There is extensive reference to online resources with annotation and commentary guiding the learning process in many directions for further study.

What You Will Learn

- Install the ARTIK toolkit and prepare to develop
- Manipulate the inner workings of the ARTIK operating system
- Look up and refer to details of the ARTIK API specification
- Perform input and output over the peripheral interface buses
- Build embeddable applications in support of IoT devices
- Embed the ARTIK modules into your own hardware products

Who This Book Is For

Samsung ARTIK Reference is for experienced developers wanting to understand and begin working with ARTIK. The book is especially of interest to those wishing to interact with ARTIK modules from within their own applications and webservices.

Closed Circuit Television Joe Cieszynski, 2006-12-28

Closed Circuit Television CCTV surveillance remains a growing industry in response to increased security threats and whilst new developments have brought clearer images, digital recording and high speed data transmission, effective security systems still rely upon proper specification and installation by engineers with an in-depth knowledge of CCTV principles and technology. The third edition of Closed Circuit Television provides a thorough technical guide for all those involved in the design, specification, installation and maintenance of CCTV systems. Fully dual standard for PAL and NTSC systems, the book covers the essential equipment and topics of relevance to practitioners, managers and students on vocational and industry training courses. Extended coverage of flat screen devices, digital recording and a new chapter on networking principles bring this popular guide up to date with the latest developments in the field. Joe Cieszynski is a well-known technical writer with a wealth of experience in the security industry. After many years of college lecturing on TV video and security topics, he currently acts as City Guilds Chief Examiner for security systems and provides independent CCTV system consultancy. Demystifies CCTV technology for installers and managers. Concise, accessible text, ideal for hard-pressed practitioners and students. Fully dual standard coverage for PAL and NTSC based systems.
