Prayers in the Precincts John C. Green, Mark J. Rozell, Clyde Wilcox, 2000-04-04 In the wake of the Clinton Lewinsky scandal the Christian Right expected major victories in the 1998 elections Instead many of its allies lost close contests and the movement was seen as a liability in some high profile campaigns In the only in depth study of the Christian Right's role in these races leading scholars analyze the role of the movement in fourteen key states from Maine to California and address speculations that the movement is fading from the American political scene The book focuses on elections on the state and local levels where the Christian Right is most influential and it describes the movement's niche in some detail Although each campaign described in the book had its unique characteristics the editors have drawn some broad conclusions about the 1998 elections While the movement was weak in the areas of candidate recruitment and fundraising they say the outcome may have also been related to external factors including a broader turnout of typically Democratic constituencies and the country's boredom with the scandal that conservatives had made the centerpiece of their campaign Despite the setbacks of 1998 the contributors argue the Christian Right continues to have an enormous influence on the political dialogue of the country Written from an unbiased nonpartisan

perspective this volume sheds light on a topic that is too frequently mired in controversy

Anti-Asian Racism and Public Health Aggie J. Yellow Horse, Anne Saw, Lan N. Đoàn, Gilbert C. Gee, 2024-02-20 Racist and xenophobic hate against Asian Americans in the midst of the COVID pandemic has been a significant threat to Asian Americans' health stemming from a deeply rooted Yellow Peril ideology which racializes Asians as a threat to United States and Western culture including reimagining Asians as a diseased public health threat. Studies have documented that Asian Americans who have experienced anti-Asian racism during the pandemic report that they are more concerned about the racism than the pandemic itself and nearly one in five Asian Americans who experienced racism display racial trauma, the psychological and emotional harm caused by racism.

Hispanic Link Weekly Report, 1992 *Harlow's Weekly*, 1922 **English for the Children** Johanna J. Haver, 2013-05-23 Silicon Valley software entrepreneur Ron Unz took on the education establishment, both major political parties, the ACLU and several activist groups with his English for the Children movement that began in 1996 and ended on Election Day 2002. His campaign to dismantle bilingual education through ballot measures in four states: California, Arizona, Colorado and Massachusetts drew frequent responses from the national media that initially opposed and then supported Unz's cause. The initiatives passed with 61-68% of the vote in three states but failed in Colorado. Experienced teacher and author of *Structured English Immersion*, Johanna J. Haver details the politics surrounding the Unz campaign, explaining both sides of the issues honestly and respectfully. She outlines the challenges that ensued after the measures became law and discusses areas of concern that remain in dispute to this day: Identification, placement and reclassification of English language learners; English proficiency tests; Segregation versus integration; Compliance versus flexibility; The Office for Civil Rights; Federal and state funding; Dual language instruction as an option.
