

The Living Environment

The continuity of life is sustained through reproduction and development.

Describe the major stages in the life cycles of plants.

- 1) Each kind of plant goes through its own stages of growth and development that may include seed, young plant, and mature plant.
- 2) The length of time from beginning of development to death of the plant is called its life span.
- 3) Life cycles of some plants include changes from seed to mature plant.
