The Cognitive Development of Reading and Reading Comprehension Carol McDonald Connor, 2016-02-26
Learning to read may be the most complex cognitive operation that children are expected to master and the latest research in cognitive development has offered important insights into how children succeed or fail at this task The Cognitive Development of Reading and Reading Comprehension is a multidisciplinary evidence based resource for teachers and researchers that examines reading comprehension from a cognitive development perspective including the principal theories and methods used in the discipline The book combines research into basic cognitive processes genetics perception memory executive functioning and language with an investigation of the effects that context and environment have on literacy outcomes making clear how factors such as health family life community policy and ecology can influence children s cognitive development

Becoming a Teacher of Reading Margaret Perkins, 2015-03-10 Learning to read is one of the most important life skills teachers can help a child develop Teaching reading is a vital part of a career in the classroom and engaging with the range of different learning styles children have is a real challenge Trainee teachers need to learn how to address this variety of learning needs and also meet the wider demands of the curriculum Margaret Perkins helps students meet these challenges to become a confident reflective teacher of reading by providing An in depth explanation of phonics teaching alongside other teaching approaches empowering trainees to choose the right approach for each individual child Key research findings so students can apply the latest thinking to their teaching practice School based activities and independent learning tasks to help apply theory to practice and develop teaching skills through self reflection Classroom scenarios of teacher child interactions that demonstrate how children learn and respond to different teaching strategies
