Sunny Martin, 2008-10 Equity, Equality, and Reform in Contemporary Public Education Grant, Marquis C., 2018-03-30 Equality and equity are often mischaracterized as interchangeable terms in public education This may explain why efforts towards reform and restructure are often not met with any real measure of success Equity Equality and Reform in Contemporary Public Education provides emerging research on the reformation of education curriculum to provide proportionate opportunities for marginalized students and support for student achievement in public education While highlighting topics such as achievement gaps gender biases and multicultural responsiveness this book explores the theories and applications of different measures of reform to promote fairness among individual students This book is an important resource for educators professionals school administrators researchers and practitioners in the field of education Curriculum Martin Robinson, 2019-09-20 Martin Robinson's Curriculum Athena versus the machine explores the educational value of a curriculum rooted in the pursuit of wisdom and advocates the enshrinement of such a curriculum as the central concern of an academic institution Rather than being seen as a data driven machine a school should be viewed as a place that enables children to develop thoughtful perspectives on the world through which they can pursue wisdom and be free to join in with the ancient and continuing conversation What is it to be human Teachers need to be liberated from policy led prescription in order to design curricula which bring the subjects being studied rather than the blind pursuit of measurable outcomes to the foreground of the school's teaching and learning agenda In Curriculum Martin Robinson explores how this can be achieved The Machine demands data order and regulation Athena is the goddess of philosophy courage and inspiration An Athena curriculum celebrates wisdom and skills and considers why it seeks to transmit the knowledge that it does In this book Martin examines how we can construct a curriculum that will allow liberal education to flourish Anti gimmick and pro wisdom the principles that he advocates will make a big difference to teachers and pupils lives and will help to ensure that our young adults are better educated Suitable for teachers school leaders and policy makers Curriculum Laboratories and Divisions Benjamin William Frazier, Bernice Elizabeth Leary, Bess Goodykoontz, Clele Lee Matheison, Cline Morgan Koon, David Segel, Frederick James Kelly, Henry Fred Alves, James Frederick Rogers, United States. Curriculum Histories in Place, in Person, in Practice Petra Hendry,Molly Quinn,Roland Mitchell,Jacqueline Bach,2023-03-10 This book situates the Curriculum Theory Project at Louisiana State University within a larger historical framework of curriculum work examining the practices which have sustained this type of curricular vitality over the lifetime of the field s existence Divided into seven parts the authors illuminate seven practices which have sustained the scholarship graduate programs mentorship and networking that have been critical to maintaining a web of international relationships This exploration and coming together of intergenerational stories reveals a more complete and nuanced narrative of the development of curriculum theory over the last 60 years Crucially the project exemplifies the continuing resilience of curriculum theory despite ongoing neo liberal aspirations to reframe education as a business Reflecting upon the lived experiences and articulated memories of those who have participated in the project and analysis of documents collected over its 25 year history it considers curriculum history ies writ large through and from this lens of practice As such it opens up fresh insights for cultivating the vitality and vigor of curriculum theory more broadly on an international scale and with a view to future directions for the field It will appeal to both new and experienced scholars working across education
