

Answering an Astronomy Question Rubric

Criteria	Exemplary	Very Good	Good	Needs Improvement
Quality of Answer	My answer includes carefully researched facts and logical conclusions drawn from my research. I answered the question well. (10)	My answer includes well-researched facts and conclusions. I answered the question. (7)	My answer includes some facts and conclusions based on my research. I somehow answered the question. (4)	My answer does not include facts and conclusions, or my facts and conclusions are not based on research. I failed to answer the question. (1)
Synthesis	I synthesize complex information from various sources into new statements and concepts. (10)	I effectively synthesize information from various sources. (7)	I partially connect the information from our sources. (4)	I do not connect the information from our various sources. (1)
Organization and Layout/ Design/Graphics	The content is well organized, using headings or bulleted lists to group related material. Graphics are informative and facilitate easy understanding of the topic. Slides are visually appealing and readable. (10)	The content uses headings or bulleted lists to organize information, but the overall organization of the topics appears flawed. The graphics partly helps the audience understand the topic. Slides are readable but lack appeal. (7)	The content is logically organized for the most part. Slides are hard to read. Graphics are used but do not facilitate easy understanding of the topic. (4)	No clear logical organizational structure is shown, just lots of facts. The use of graphics is limited or not used at all. (1)
Mechanics and Usage	One or less misspellings or grammatical errors. (5)	Two or three misspellings and/or grammatical errors. (4)	Four misspellings and/or grammatical errors. (3)	More than four spelling and/or grammatical errors. (1)
Documentation of Sources*	All information and graphic sources are cited. Documentation is in the desired format. (5)	All information and graphic sources are cited. Documentation is mostly in the desired format. (4)	Most information and graphic sources are cited, but not documented in the desired format. (3)	Information and graphic sources are not cited. (1)

Rubric For Answering Questions Completely:

A Complete Guide to Rubrics Audrey M. Quinlan, 2012 This book takes a developmental perspective at the use of scoring rubrics to assess student work Citing developmental characteristics of each age the author presents examples and adaptations of assessment rubrics on a variety of subjects for teachers from kindergarten through adult college After a presentation of foundation information on rubrics separate chapters are devoted to each grade level from primary through adult Written so that each chapter can be addressed independently the book provides additional chapters devoted to assessing technological topics and using rubrics with students with special needs The final chapters provide practical information to help teachers to create their own rubrics and to covert rubric scores to letter grades An updated annotated listing of recommended rubric websites is included

Assessment for Experiential Learning Cecilia Ka Yuk Chan, 2022-09-29 Chan's book explores the challenges in assessing experiential learning deepens our understanding and inspires readers to think critically about the purpose of assessment in experiential learning Experiential learning has been studied and proven to be effective for student learning particularly for the development of holistic competencies i.e 21st century skills soft skills transferable skills considered essential for individuals to succeed in the increasingly global and technology infused 21st century society Universities around the world are now actively organising experiential learning activities or programmes for students to gain enriching and diversified learning experiences however the assessment of these programmes tends to be limited unclear and contested Assessment plays a central role in education policies and students approach to learning But do educators know how to assess less traditional learning such as service learning entrepreneurship cross discipline or cross cultural projects internships and student exchanges While the current assessment landscape is replete with assessments that measure knowledge of core content areas such as mathematics law languages science and social studies there is a lack of assessments and research that focus on holistic competencies How do we assess students ability to think critically problem solve adapt self manage and collaborate Central to the discussion in this book is the reason students are assessed and how they should be assessed to bring out their best learning outcomes Offering a collection of best assessment practice employed by teachers around the world this volume brings together both theoretical and empirical research that underpins assessment and perceptions of different stakeholders understanding of assessment in experiential learning from students teachers and policymakers The idea of assessment literacy also plays an important role in experiential learning for example reflection is often used in assessing students in experiential learning but how reflection literate are educators are they aware of the ethical dilemmas that arise in assessing students These questions are discussed in detail The volume also introduces a quality assurance programme to recognise student development within experiential learning programmes The book will be particularly informative to academic developers teachers students and community partners who struggle with the development and assessment for experiential learning those who plan to apply for funding in

experiential learning and policymakers and senior managements seeking evidence and advice on fine tuning curricular assessment designs and quality assurance The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
