Classe, 2000 *English Women, Religion, and Textual Production, 1500-1625* Dr Micheline White, 2013-05-28 Contributing to the growing interest in early modern women and religion this essay collection advances scholarship by introducing readers to recently recovered or little studied texts and by offering new paradigms for the analysis of women s religious literary activities Contributors underscore the fact that women had complex multi dimensional relationships to the religio political order acting as activists for specific causes but also departing from confessional norms in creative ways and engaging in intra as well as extra confessional conflict The volume thus includes essays that reflect on the complex dynamics of religious culture itself and that illuminate the

importance of women's engagement with Catholicism throughout the period. The collection also highlights the vitality of neglected intertextual genres such as prayers, meditations, and translations, and it focuses attention on diverse forms of textual production such as literary writing, patronage, epistolary exchanges, public reading, and epitaphs. Collectively, *English Women: Religion and Textual Production, 1500-1625* offers a comprehensive treatment of the historical, literary, and methodological issues preoccupying scholars of women and religious writing. **The Publishers Weekly**, 1878. 'All my books in foreign tongues' Kasper van Ommen, 2025-02-19. In 1609, the renowned scholar Joseph Scaliger (1540-1609) bequeathed all my books in foreign tongues to the library of Leiden University. Scaliger's gift marked the foundation of the extensive Oriental collections in Leiden. How and why did Scaliger collect these rare and precious books? The books and manuscripts printed and written in Hebrew, Arabic, Ethiopian, Armenian, Russian, and other non-western languages were kept separate from the rest of the collection of Leiden University Library in an ornamental cupboard, the Arca Scaligerana. This study offers the first systematic exploration of the printed books in Scaliger's bequest. The books remain extant in Leiden University Library, albeit spread across the collection. By reconstructing the collection, we gain a deeper understanding of Scaliger's extensive scholarly network, the development of oriental philology, the early modern book trade, and the early modern use of catalogues and the development of libraries. **The Bookseller and the Stationery Trades' Journal**, 1922.
