Russian Politics in Transition NIKOLAI. SERGEYEV BIRYUKOV (VICTOR.), Victor Sergeyev, 2019-05-31 First published in 1997 and written by two distinguished Russian scholars this book examines the problems and prospects of democratic transition in Russia since the disintegration of the Soviet Union Specifically it offers a compelling evaluation of the rise and fall of the 1990 Russian parliament The problems of transforming what had been a regional assembly into a national parliament are analysed in the context of the failure of perestroika the difficulties of generating pluralist politics the strength of presidential power and the tensions between ideologies of reform on the one hand and the realities of economic crisis on the other The analysis allows them to evaluate the role of political upheaval and conflicts of legitimacy in Russian democratization The book is divided into three sections The first offers a theory of transition to modern democracy This provides the framework for the second section an account of the first parliament after the 1990 elections its conflicts with presidential power and the reform agenda of the government and finally its fall The third section examines three particular problems which were decisive in producing the crisis of Russian parliamentarianism and democratization voting behaviour in a non party parliamentary setting and its relationship to conflicts between legislature and executive populism and representation and the role of democratic values and procedures in the legislative process Drawing on their unrivalled knowledge of issues events and actors Nikolai Biryukov and Victor Sergeyev gather and interpret much new evidence to explore their subject In a path breaking study the authors draw on a variety of sources and traditions to produce an original theory of the problems of political stability set up by democratic transition in Russia      **Russian Politics in Transition**

Causes and Consequences of Democratization Anastassia V. Obydenkova,Alexander Libman,2015-05-22 In recent decades the regions of Russia have taken different paths of regime transition Despite the consolidation of an autocratic regime at national level and the centralization steered by Vladimir Putin s government the variation across sub national regimes persists Using an innovative theoretical framework this book explores both causes and consequences of democratization in the regions of Russia It is the first study in the field to systematically integrate structural and agency approaches in order to account for economic social historical and international causes of democratization and to trace its consequences By focusing on the challenging and under studied topic of sub national regimes the book provides a unique perspective on regime transition and the new theoretical framework contributes to a better understanding of democratization world wide The book will be of key interest to scholars and students of democratization sub national regimes East European politics comparative politics post communism and international relations

Transitional Citizens Timothy J. COLTON,Timothy J Colton,2009-06-30 Subjects obey Citizens choose Transitional Citizens looks at the newly empowered citizens of Russia s protodemocracy facing choices at the ballot box that just a few years ago under dictatorial rule they could not have dreamt of The stakes in post Soviet elections are extraordinary While in the West politicians argue over refinements to social systems in basically good working order in the Russian Federation they address graver concerns dysfunctional institutions individual freedom nationhood property rights provision of the basic necessities of life in an unparalleled economic downswing The idiom of Russian campaigns is that of apocalypse and mutual demonization This might give an impression of political chaos However as Timothy Colton finds voting in transitional Russia is highly patterned Despite their unfamiliarity with democracy subjects turned citizens learn about their electoral options from peers and the mass media and make choices that manifest a purposiveness that will surprise many readers Colton reveals that post Communist voting is not driven by a single explanatory factor such as ethnicity charismatic leadership or financial concerns but rather by multiple causes interacting in complex ways He gives us the most sophisticated and insightful account yet of the citizens of the new Russia

**Making Russian Democracy Work** Christopher Marsh, 2000 A study of the prospects for further democratization in the Russian Federation Analyzes various indicators of the degree of socio economic modernization across 89 regions of the Federation and examines evidence of sufficient social capital to make democracy work By focusing on social and economic factors which help serve as the basis for democracy this study readily lends itself to usefulness in comparing Russia with other political systems Marsh is associate director of Slavic and East European studies and assistant professor of political science at Baylor University *Russia's Stillborn Democracy?* Graeme J. Gill, Roger D. Markwick, 2000-03-23 The decade and

a half since Gorbachev came to power has been a tumultuous time for Russia. It has seen the expectations raised by perestroika dashed, the collapse of the Soviet superpower and the emergence of a new Russian state claiming to base itself on democratic market principles. It has seen a political system shattered by a president turning tanks against the parliament and then that president configuring the new political structure to give himself overwhelming power. These upheavals took place against a backdrop of social dislocations as the Russian people were ravaged by the effects of economic shock therapy. This book explains how these momentous changes came about and in particular why political elites were able to fashion the new political system largely independent of the wishes of the populace at large. It was this relationship between powerful elites and weak civil society forces which has led to Russian democracy under Yeltsin being still born.
