An absolute go-to for all parents, therapists, anyone who works with or knows parents of young children. A collection of the most read articles from Janet's popular and long-running blog *Elevating Child Care* focuses on common infant issues including Nourishing our babies, healthy eating habits, Calming your clingy, fearful child, How to build your child's focus and attention span, Developing routines that promote restful sleep, Eschewing the quick fix tips and tricks of popular parenting culture. With the wisdom of *Intuitive Eating*, a manifesto for parents to help them reject diet culture and raise the next generation to have a healthy relationship with food and their bodies. Kids are born intuitive eaters. Well-meaning parents influenced by the diet culture that surrounds us all are often concerned about how to best feed their children. Nearly everyone is talking about what to do about the childhood obesity epidemic. Meanwhile, every proposed solution for how to feed kids to promote health and prevent weight-related health concerns doesn't mention the importance of one thing: a healthy relationship with food. The consequences can be disastrous and are indistinguishable from the predictable and well-researched impact that dieting has on adults. Weight cycling, low self-esteem, deviations from normal growth and eating disorders are just some of the negative health effects children can experience from the fear-based approach to food and eating that has become the norm in our culture. Sumner Brooks and Amee Severson believe that parents want the best for their kids and know a parent's job is to make them feel safe in the world and their bodies. They want them to grow up to be competent, healthy eaters living their best lives in the bodies they were born to have. *Intuitive*

Eating is more talked about than ever and the time is now to make sure parents truly understand what it means to raise an intuitive eater. With a compassionate and relatable voice, *How to Raise an Intuitive Eater* is the only book of its kind to teach parents what they need to know to improve health, happiness, and wellbeing for the littlest among us. *An At-Home Guide to Children's Sensory and Behavioral Problems* Linda Garofallou, Louisa Silva, 2023-10-11. *An At-Home Guide to Children's Sensory and Behavioral Problems* gives a new perspective on sensory and behavior problems, one that sees those behaviors as stemming from a child's immature sensory nervous system and regulation difficulties. This book offers an effective at-home intervention, the Qigong Sensory Treatment, that enlists a parent's attuned touch to address often overlooked sensory issues that underlie problem behaviors and works to organize those sensory experiences to foster connection and the capacity for self-regulation. It introduces the reader to a new and clinically useful model to understand sensory development, the Early Childhood Self-regulatory Milestones, which are critical to the emotional and behavioral health and regulation for all children. With clear, step-by-step instructions, diagrams, and links to online instructional videos, it teaches parents how to successfully implement the daily QST hands-on routine. Unique to the treatment model is how it guides and focuses parents to easily recognize, interpret, and respond to their child's shifting non-verbal body and behavioral responses and cues. An extensive workbook section navigates parents through a year-long process of learning and implementing QST at home. Weekly letters include those written by the authors, parents who share their own personal experiences with the routine, and by QST Master Trainers who offer their years of experience and helpful tips. The 52 letters are timed to anticipate and answer typical questions or stumbling blocks that parents commonly encounter at key points, guiding them to success with their child's sensory and behavior difficulties while making for happier and less stressful times with their child. This guide will be indispensable to parents and clinicians looking to understand and more effectively work with their child's developmental difficulties.
