Spiritually Incorrect Dan Wakefield, 2005-10 In an age of political correctness and watching what we say award winning author Dan Wakefield dares to ask the risky and sometimes hilarious questions about spirituality Why is poverty sacred wealth profane Can a coffee house be a sacred space Does yoga make you a Hindu Can a man pray in public and still be macho Does eating a steak really taint your soul Who in our lives and our modern day world deserves to be canonized as a saint Wakefield's creative exploration of these questions is a quest to free the spiritual world from pretension anxiety and the seemingly endless rules that can dictate how you identify for don't with religion Humorous stories from his own spiritually incorrect journey to God punctuate Wakefield's ultimate revelation that spirituality is not about conforming to a set of rules but rather discovering the practices that uniquely work for you **The Philosophy of No-Mind** Nishihira

Tadashi, 2024-04-18 Nishihira Tadashi one of Japan's leading philosophers introduces the deeply experiential philosophy of no mind mushin In everyday Japanese mushin is when one loses oneself in the reality of the present and becomes one with it resulting in one's best performance However behind this everyday use is a concept that touches the core of Japanese spirituality This book explores no mind in its dynamic complexity It is both the letting go of the calculations of mind and at the same time the arising of a vibrant consciousness in unity with reality This gives rise to various tensions Is it about negating or affirming self Is stillness or activity How does it relate with social ethics or religious transcendence And what is stopping no mind from descending into mere mindlessness These tensional facets are explored through philosophy and history of thought in Japan from pre Buddhist Japanese thought to Zen Buddhism in D T Suzuki and Toshihiko Izutsu to swordsmanship and Noh theater These historical approaches are brought to the here and now dialoguing with psychology ethics and the experiences of everyday life and ending with two preliminary practical explorations What does it mean to care for another and to educate from the point of view of no mind **Spirituality: A Very Short Introduction** Philip

Sheldrake, 2012-11-29 With a decline in traditional religious belief interest in spirituality has grown in Western cultures The notion of spirituality expresses the fact that people are driven by goals that concern more than material satisfaction Here the author explores the historical foundations of spirituality and thinks about how it transforms lives *Leadership, Spirituality and the Common Good* Henri Claude de Bettignies, Mike J. Thompson, 2010 *Mountains, Rivers, and the Great Earth* Jason M. Wirth, 2017-06-05 FINALIST for the 2017 Foreword INDIES Book of the Year Award in the Philosophy category Meditating on the work of American poet and environmental activist Gary Snyder and thirteenth century Japanese Zen Master Eihei Dogen Jason M Wirth draws out insights for understanding our relation to the planet's ongoing ecological crisis He discusses what D gen calls the Great Earth and what Snyder calls the Wild as being comprised of the play of waters and mountains

emptiness and form and then considers how these ideas can illuminate the spiritual and ethical dimensions of place The book culminates in a discussion of earth democracy a place based sense of communion where all beings are interconnected and all beings matter This radical rethinking of what it means to inhabit the earth will inspire lovers of Snyder s poetry Zen practitioners environmental philosophers and anyone concerned about the global ecological crisis

The Power of Neuroplasticity for Pastoral and Spiritual Care Kirk A. Bingaman, 2014-04-10 Studies in neuroscience demonstrate that a focus on mindfulness meditation and contemplative spiritual practice has the capacity to increase our non anxious awareness and significantly lower our stress Not only is this finding of immediate importance for pastoral counselors and psychotherapists it will even necessitate a paradigm shift in the way that pastoral and spiritual practitioners approach the general care of souls The starting point for such a paradigm shift is an acknowledgement of the built in negativity bias of the brain and how certain beliefs and theological views may inadvertently reinforce the bias to the detriment of individuals and faith communities Once necessary for human survival the ingrained bias can often be excessive for today s world resulting in negatively disproportionate assessments of life events and human relationships To balance the neural predisposition toward negativity and anxious awareness it is necessary for pastoral and spiritual caregivers and those in their care to cultivate a regular contemplative meditational practice The Power of Neuroplasticity for Pastoral and Spiritual Care focuses on the groundbreaking finding of contemporary neuroscience that the brain is built for change across the entire lifespan It is designed to make the research accessible to and relevant for those engaged in the work of pastoral and spiritual care in order to help clients and congregants effect lasting and transformative changes in the mind and brain Through the regular practice of contemplative prayer and meditation we can literally calm the stress region of the brain in order to live less anxiously and experience more fully the peace and joy of the present moment The introduction of mindfulness and acceptance based counseling approaches will provide pastoral and spiritual practitioners with an important therapeutic framework to situate their work from which they can make more informed and effective interventions geared toward using the mind to change the brain

Exploring the Spirituality of the World Religions Duncan S. Ferguson,2010-08-24 Introduction to the spiritual pathways of the major world religions exploring the core beliefs values and practices of each tradition *Anatomy of Spirituality: Portrait of the Soul* Chander Behl,2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain s biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul
