### NOVEMBER EXAMINATION PAPER 1: PHYSICS

#### SECTION A

#### QUESTION 1

Various options are provided as possible answers to the following questions. Choose the correct answer and write **ONLY** the LETTER (A-D) next to the QUESTION NUMBER in your answer book.

- 1.1 An example of a vector quantity:
- velocity
  - displacement
  - speed
  - mass
- 1.2 A boy sits on a chair. Gravitational force pulls him down, the force that keeps him from moving down would be:
- friction
  - applied force
  - gravity
  - normal force
- 1.3 Two forces  $F_1$  and  $F_2$  have a net force of 120N if they act in the same direction and are balanced if they act in the opposite direction. The individual forces of  $F_1$  and  $F_2$  will be:
- 70N and 50N
  - 120N and 0N
  - 60N and 60N
  - 80N and 40N

Use the circuit diagram below to answer QUESTIONS 1.4 and 1.5

- 1.4 The voltage over the parallel resistors will be:
- 5V
  - 7V
  - 2V
  - 3V
- 1.5 The total resistance of the circuit if all resistors were identical with a resistance of 2Ω:
- 10Ω
  - 4,67Ω
  - 5Ω
  - 6Ω
- 1.6 A box is pushed forward with a force of 200N but does not move. A possible reason for this is that:
- frictional force is also 200N
  - frictional force is more than 200N
  - frictional force is less than 200N
  - none of the above
- 1.7 The diagram below shows a coil and a magnet with a pole P. A magnetic field is induced in the coil due to the motion of the magnet.

Which **ONE** of the following combinations will result in an induced magnetic field with **NORTH POLE** at point X?

	DIRECTION OF MOTION OF MAGNET	POLARITY OF P
A	into the coil	North
B	Up and down inside the coil	North
C	into the coil	South
D	Up and down inside the coil	South

Evidence-Based Management Eric Barends, Denise M. Rousseau, 2018-09-03 Decisions in businesses and organizations are too often based on fads fashions and the success stories of famous CEOs At the same time traditional models and new cutting edge solutions often fail to deliver on what they promise This situation leaves managers business leaders consultants and policymakers with a profound challenge how can we stay away from trends and quick fixes and instead use valid and reliable evidence to support the organization In response to this problem evidence based management has evolved with the goal of improving the quality of decision making by using critically evaluated evidence from multiple sources organizational data professional expertise stakeholder values and scientific literature This book sets out and explains the specific skills needed to gather understand and use evidence to make better informed organizational decisions Evidence Based Management is a comprehensive guide that provides current and future managers consultants and organizational leaders with the knowledge and practical skills to improve the quality and outcome of their decision making Online resources include

case studies exercises lecture slides and further reading      **Physics Briefs** ,1991      **Corporate Power and Human Rights** Manette Kaisershot,Nicholas Connolly,2018-02-02 There is ample evidence about the negative effects business activity of all types can have on the provision of human rights Equally there can be little doubt economic development usually driven through business activity and trade is necessary for any state to provide the institutions and infrastructure necessary to secure and provide human rights for their citizens The United Nations and businesses recognise this tension and are collaborating to effect change in business behaviours through voluntary initiatives such as the Global Compact and John Ruggie s Guiding Principles Yet voluntary approaches are evidently failing to prevent human rights violations and there are few alternatives in law for affected communities to seek justice This book seeks to robustly challenge the current status quo of business approaches to human rights in order to develop meaningful alternatives in an attempt to breach the gap between the realities of business and human rights and its discourse This book was previously published as a special issue of the International Journal of Human Rights      **The Conflicted Superpower** Andrew Kennedy,2018-05-22 For decades leadership in technological innovation has sustained U S power worldwide Today however processes that undergird innovation increasingly transcend national borders Cross border flows of brainpower have reached unprecedented heights while multinationals invest more and more in high tech facilities abroad In this new world U S technological leadership increasingly involves collaboration with other countries China and India have emerged as particularly prominent partners most notably as suppliers of intellectual talent to the United States In The Conflicted Superpower Andrew Kennedy explores how the world s most powerful country approaches its growing collaboration with these two rising powers Whereas China and India have embraced global innovation policy in the United States is conflicted Kennedy explains why through in depth case studies of U S policies toward skilled immigration foreign students and offshoring These make clear that U S policy is more erratic than strategic the outcome of domestic battles between competing interests Pressing for openness is the high tech community the technology firms and research universities that embody U S technological leadership Yet these pro globalization forces can face resistance from a range of other interests including labor and anti immigration groups and the nature of this resistance powerfully shapes just how open national policy is Kennedy concludes by asking whether U S policies are accelerating or slowing American decline and considering the prospects for U S policy making in years to come

psychological mechanisms that make individuals more or less likely to accept the seriousness of environmental challenges such as climate change. Given the new cutting edge research in this field we may be able to make individuals more proactive in the protection of the environment and more accepting of policy measures required to mitigate climate change. We see this research topic as a way for psychological scientists to contribute substantially to an important area of public debate and policy. For this line we welcome articles that will focus on ways in which people respond to various framings of policy relevant information and how morality may play into the individuals policy views that center on climate change and environmental protection.

*Climate Changed* Mara Freilich, Irmak Turan, Jessica Varner, Lizzie Yarina, 2025-07-15 Models change our worlds. From global carbon flux models to regional coastal flood prediction maps, climate related models influence how we know our environment, how we build our cities, and how we act on a climate altered planet. Yet such models typically require specialized knowledge to navigate, and because the climate crisis is inherently multidimensional, technical expertise in isolation is not enough. *Climate Changed* examines models and their imperfect yet central role in understanding the relationship between global climate dynamics and the human built environment. It compares and synthesizes the methods and function of models in disciplines ranging from architecture and planning to climate science and natural hazards research. This book considers how disparate models are woven together to understand the climate crisis, underscoring the necessity of combining locally situated and

transdisciplinary knowledge with climate science to navigate current and future cataclysmic changes It highlights the challenges and consequences of disciplinary boundaries siloed scientific knowledge and uneven data and develops ways to overcome these limitations As the world faces the effects of climate change climate scientists are debating the future of their field architects engineers and planners are designing in the context of climate change and society at large is grappling with how to take action This book brings those communities together to chart a path forward [COMPLETE COURSE for employment on Offshore Drilling Rigs](#) Petrogav International Oil & Gas Training Center,2020-07-02 This course covers aspects like HSE Process Mechanical Electrical and Instrumentation Control that will enable you to apply for any position in the Oil and Gas Industry The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry As a BONUS this eBook contains web addresses to 308 video movies for a better understanding of the technological process and 205 web addresses to recruitment companies where you may apply for a job **COMPLETE COURSE for employment on Offshore Drilling Platforms** Petrogav International Oil & Gas Training Center,2020-07-02 This course covers aspects like HSE Process Mechanical Electrical and Instrumentation Control that will enable you to apply for any position in the Oil and Gas Industry The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry As a BONUS this eBook contains web addresses to 309 video movies for a better understanding of the technological process and 205 web addresses to recruitment companies where you may apply for a job **150 technical questions and answers for job interview Offshore Oil & Gas Platforms** Petrogav International Oil & Gas Training Center,2020-06-30 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry Since these questions are so common hiring managers will expect you to be able to answer them smoothly and without hesitation This eBook contains 150 questions and answers for job interview and as a BONUS web addresses to 220 video movies for a better understanding of the technological process This course covers aspects like HSE Process Mechanical Electrical and Instrumentation Control that will enable you to apply for any position in the Oil and Gas Industry [JOB INTERVIEW Offshore Oil & Gas Rigs](#) Petrogav International Oil & Gas Training Center,2020-07-01 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry Since these questions
