A Cultural History of Waste Disposal Benjamin A. Lawson, 2024-12-11 This book offers a historical analysis of landfill sites in New York City Greater Toronto and Greater Tel Aviv and uses them as case studies to emphasize the international and global scale of issues concerning waste disposal and park redevelopments New York Toronto and Tel Aviv are currently redeveloping giant landfills into parks to much fanfare The park redevelopments may be seen as an attempt to erase or assuage the decades of problematic waste disposal policy that led to the creation of such large landfills Booster rhetoric underscores this point such as promoting how the parks will be a green lung for the city This book contextualizes these redevelopments by offering a historical analysis providing a greater understanding of the past current and future potential issues It goes on to analyze the language and media coverage surrounding former waste sites becoming park redevelopments including how cities use art to promote their image and gain cultural relevance By engaging with both the works of waste historians and literature on waste and discard studies the book provides theoretical models for analyzing the role of power in municipal systems as well as human and ecological impacts on waste It concludes with an analysis of the features necessary for landfill parks to be successful This book will be useful for scholars researchers and academics studying waste studies the environment cities and sustainable development as well as for policymakers and environmental

eco artists **Nationalism and the Politics of Fear in Israel** Cathrine Thorleifsson, 2015-07-31 Kiryat Shmona located near the Israeli Lebanese border often makes the news whenever there is an outbreak of violence between the two countries. In Israel's northernmost city the residents are mostly Mizrahim that is Jews descending from Arab and Muslim lands. Cathrine Thorleifsson uses the dynamics at play along this border to develop wider conclusions about the nature of nationalism, identity, ethnicity and xenophobia in Israel and the ways in which these shift over time and are manipulated in different ways for various ends. She explores the idea of being on the periphery of nationhood, examining the identity forming and negotiating processes of these Mizrahim who do not neatly dovetail with the predominantly Ashkenazi concept of what it means to be Israeli. Through in-depth ethnographic observation and analysis Thorleifsson highlights the daily negotiation of Moroccan and Persian Jewish families who define themselves in opposition to Ashkenazi Jews from Russia and Central and Eastern Europe and the Druze, Christian and Muslim Arab populations which surround them. But this is not just an examination of differences and stereotypes which are continually perpetuated. Instead Thorleifsson highlights the instances of intermarriage between Mizrahi and Ashkenazi Jews and what this means for the high politics of nationalist narratives as well as the everyday aspect of family dynamics. But having done so she does also acknowledge that many of Israel's laws which deal with ethnic identity do result in discrimination and daily exclusion against a large number of its citizens, something which reflects the ethnocratic character of the state. By including all of these different aspects of the daily negotiation of identity in a northern town in Israel Thorleifsson offers a frank and balanced account of the nature of state nationalism and the people who are affected by it. Covering an interesting aspect of Israeli society which is often overlooked, this account of relations between both Ashkenazi and Mizrahi Jews and those between Mizrahi Jews and Palestinians is an important contribution to the study of Israeli and Middle Eastern societies.

The Way into Judaism and the Environment Jeremy Benstein, PhD, 2013-05-07 An accessible introduction to the Jewish understanding of the natural world and the key concepts central to Jewish environmentalism. At a time of growing concern about environmental issues, this book explores the relationship Jews have with the natural world and the ways in which Judaism contributes to contemporary social environmental issues. It also shows readers the extent to which Judaism is part of the problem and how it can be part of the solution. Offering both an environmental interpretation of Judaism and a Jewish approach to environmentalism, this book examines what environmentalism is, what the creation stories can teach us about who we are and what nature is, the relevance of Torah and traditional sources.

The Zionist Ideas Gil Troy, 2018 The most comprehensive Zionist collection ever published. *The Zionist Ideas: Visions for the Jewish Homeland Then and Now Tomorrow* sheds light on the surprisingly diverse and shared visions for realizing Israel as a democratic Jewish state. Building on Arthur Hertzberg's classic *The Zionist Idea*, Gil Troy explores the backstories, dreams and legacies of more than 170 passionate Jewish visionaries. Quadruple Hertzberg's original number and now including women, Mizrahim and others from the 1800s to today, Troy divides the

thinkers into six Zionist schools of thought Political Revisionist Labor Religious Cultural and Diaspora Zionism and reveals the breadth of the debate and surprising syntheses He also presents the visionaries within three major stages of Zionist development demonstrating the length and evolution of the conversation Part 1 pre 1948 introduces the pioneers who founded the Jewish state such as Herzl Gordon Jabotinsky Kook Ha am and Szold Part 2 1948 to 2000 features builders who actualized and modernized the Zionist blueprints such as Ben Gurion Berlin Meir Begin Soloveitchik Uris and Kaplan Part 3 showcases today s torchbearers including Barak Grossman Shaked Lau Yehoshua and Sacks This mosaic of voices will engage equally diverse readers in reinvigorating the Zionist conversation weighing and developing the moral social and political character of the Jewish state of today and tomorrow *What is Environmental History?* J. Donald

Hughes,2015-11-30 What is environmental history It is a kind of history that seeks understanding of human beings as they have lived worked and thought in relationship to the rest of nature through the changes brought by time In this new edition of his seminal student textbook J Donald Hughes provides a masterful overview of the thinkers topics and perspectives that have come to constitute the exciting discipline that is environmental history He does so on a global scale drawing together disparate trends from a rich variety of countries into a unified whole illuminating trends and key themes in the process Those already familiar with the discipline will find themselves invited to think about the subject in a new way This new edition has been updated to reflect recent developments trends and new work in environmental history as well as a brand new note on its possible future Students and scholars new to environmental history will find the book both an indispensable guide and a rich source of inspiration for future work **Transboundary Water Issues in Israel, Palestine, and the Jordan River Basin**

David B. Brooks,Julie Trottier,Giulia Giordano,2019-10-11 This book highlights the search for permanent freshwater agreements between Israel Palestine and the western portions of Jordan and underscores the benefits of shared water management among the three countries Throughout the book efforts are made to share transboundary water in ways that are simultaneously physically feasible ecologically sustainable and socially equitable Thanks to the Peace Treaty between Israel and Jordan the management of shared water resources has been working well though future relationships are uncertain at present However the current arrangements for Israel and Palestine are at best inadequate and in some cases counterproductive In closing the book argues that trilateral agreements on water can and should be concluded now before seeking to resolve the full range of issues that remain uncertain in a Final Status Agreement between Israel and Palestine

All the Trees of the Forest Alon Tal,2013-10-22 In this insightful and provocative book Alon Tal provides a detailed account of Israeli forests tracing their history from the Bible to the present and outlines the effort to transform drylands and degraded soils into prosperous parks rangelands and ecosystems Tal s description of Israel s trials and errors and his exploration of both the environmental history and the current policy dilemmas surrounding that country s forests will provide valuable lessons in the years to come for other parts of the world seeking to reestablish timberlands *Management Of*

Transboundary Water Resources Under Scarcity: A Multidisciplinary Approach Ariel Dinar, Yacov Tsur, 2017-03-17 Water scarcity due to climate change population growth and economic development is a critical issue in many semi arid and arid regions around the world Water scarcity is especially critical in regions where water is shared by several riparian states and used for competing purposes irrigation domestic industry environment and hydropower There is evidence that water scarcity may give rise to conflicts among the riparian states that share water basins At the same time there is evidence that proper arrangements among riparian states create a basis for cooperation which is a necessary condition for economic development food production environmental sustainability and poverty reduction This book presents a collection of work presented by a group of academics and policy experts dealing with the impact of water scarcity and variability on the ability to jointly manage shared water and the derived welfare of international states and nations sharing international river basins consisting of economics technology law and institutions geography and international relations The book covers theoretical aspects of management of transboundary water as well as case studies from hotspots around the world The unique aspect of this book is the multidisciplinary nature of the chapters reflecting a new field of research that will gain popularity as water scarcity will increase over time and across regions The chapters from the book were presented at the Management of Transboundary Water Resources under Scarcity Perspectives on Agriculture and Food Security workshop held at The Hebrew University of Jerusalem Israel from June 22 to 23 2015
