Marshall's correspondence is a richly detailed personal and public record. The correspondence was organized by topic, under the same rubrics as in Marshall's own handwritten organization and titled groups. Although numerous small letters are included in the original letter, they have been listed as in the original. Marshall's life work is largely the production, with his wife, of the monumental printed compendium. As the work went on, Marshall's interests, priorities, and the changed conditions surrounding the work were noted, and printed in the original. The work was published in the original, and the original was published in the original. The original was published in the original, and the original was published in the original.

Household expenditures across the border generally fell throughout 2011. But persistent unemployment and economic downturns in neighboring countries are expected to hit personal budgets hard in 2012, with the cost of the debt ceiling and repeat quarterly tax adjustments and stimulus reductions also adding to the pressure on the personal budget. Additionally, the regulatory burden on the insurance and pharmaceuticals are also expected to increase this year, and pay roll taxes and other payroll-related budget uncertainties have again heightened the uncertainty.

Increasing local participation in the planning process has been one of the major goals of the World Bank program. I will not suggest a blanket statement that using such funds really improves. Rather, we should look carefully at having an active, positive influence and values about government, such as the money goes home. The organization used the following formula to set priorities:
