Translators and Their Prologues in Medieval England Elizabeth Dearnley, 2016 An examination of French to English translation in medieval England through the genre of the prologue The prologue to Layamon's Brut recounts its author's extensive travels wide yond thas leode far and wide across the land to gather the French Latin and English books he used as source material The first Middle English writer to discuss his methods of translating French into English Layamon voices ideas about the creation of a new English tradition by translation that proved very durable This book considers the practice of translation from French into English in medieval England and how the translators themselves viewed their task At its core is a corpus of French to English translations containing translator's prologues written between c 1189 and c 1450 this remarkable body of Middle English literary theory provides a useful map by which to chart the movement from a literary culture rooted in Anglo Norman at the end of the thirteenth century to what in the fifteenth is regarded as an established English tradition Considering earlier Romance and Germanic models of translation wider historical evidence about translation practice the acquisition of French the possible role of women translators and the manuscript tradition of prologues in addition to offering a broader pan European perspective through an examination of Middle Dutch prologues the book uses translators prologues as a lens through which to view a period of critical growth and development for English as a literary language Elizabeth Dearnley gained her PhD from the University of Cambridge

Václav Havel's Meanings David S. Danaher, Kieran Williams, 2024-01-01 No one in Czech politics or culture could match the international stature of Václav Havel at the time of his death in 2011 In the years since his passing

his legacy has only grown as developments in the Czech Republic and elsewhere around the world continue to show the importance of his work and writing against a range of political and social ills from autocratic brutality to messianic populism This book looks squarely at the heart of Havel's legacy the rich corpus of texts he left behind It analyzes the meanings of key concepts in Havel's core vocabulary truth power civil society home appeal indifference hotspot theatre prison and responsibility Where do these concepts appear in Havel's oeuvre What part do they play in his larger intellectual project How might we understand Havel's focus on these concepts as a centerpiece of his contribution to contemporary thought How does Havel's particular perspective on the meaning of these concepts speak to us in the here and now The ten contributors use a variety of methodological tools to examine the meaning of these concepts drawing on a diversity of disciplines political science and political philosophy historical and cultural analysis discourse textual analysis and linguistic corpus analysis

Wood, 2018-11-12 The dramatic task of re-imagining clerical identity proved crucial to the Renaissance and Reformation Jon Wood brings new light to ways in which that discussion animated reconfigurations of church state and early modern populace End Times considerations of Christian religion had played a part in upheavals throughout the medieval period but the Reformation era mobilized that tradition with some new possibilities for understanding institutional leadership Perceiving dangers of an overweening institution on the one hand and anarchic priesthood of all believers on the other hand early Protestants defended legitimacy of ordained ministry in careful coordination with the state The early Reformation in Zurich emphatically disestablished traditional priesthood in favour of a state supported prophethood of exegetical linguistic expertise The author shows that Heinrich Bullinger's End Times worldview led him to reclaim for Protestant Zurich a notion of specifically clerical priesthood albeit neither in terms of statist bureaucracy nor in terms of the traditional sacramental character that his precursor Huldrych Zwingli had dismantled Clerical priesthood was an extraordinarily fraught subject in the sixteenth century especially in the Swiss Confederation Heinrich Bullinger's private manuscripts helpfully supplement his more circumscribed published works on this subject The argument about reclaiming a modified institutional priesthood of Protestantism also prompts re-assessment of broader Reformation history in areas of church state coordination and in major theological concepts of covenant and justification that defined religious confessional distinctions of that era **Timor-Leste's Bill of Rights** Annemarie Devereux, 2015-05-28 The Constitution of the Democratic Republic of Timor-Leste of 2002 contains over 40 human rights provisions in its Bill of Rights In addition to providing an overview of the process leading up to the adoption of the Constitution this book brings together

information relating to each section of the Bill of Rights presenting progressive texts produced during the process of the Constituent Assembly highlights of the arguments put forward within the Constituent Assembly concerning the draft provisions including alternative proposals advanced submissions made by Timorese officials civil society and international bodies and the results of consultation with the broader community before and during the constitutional process It is designed to be useful in particular to judges and legal practitioners called upon to interpret the Constitution government officials and civil society actors involved in human rights work as well as students of history and constitutional law in Timor Leste and internationally
