

An illustration of a Roman scene. In the foreground, a man in a white toga with a red sash stands on the left. In the center, a man in a military cloak sits on a stone bench. To his right, two women in blue and green dresses stand. In the background, there is a classical temple with columns. The scene is set against a backdrop of a city with red-tiled roofs and a blue sky.

to explore the relationship between the Arthurian chronicles and the romances He demonstrates how competing and conflicting traditions interacted with one another and how writers and readers of Arthurian texts negotiated a complex textual tradition Moll asserts that the enormous variety and number of existing chronicles demonstrates the immense popularity of the historical Arthur in medieval England Since these chronicles were the dominant source of Arthurian information for the late medieval reader they provide an invaluable and neglected interpretive context for modern readers of Malory and other later medieval romances The first monograph to look at the impact of these historical texts on Arthurian literature Before Malory is also the first to show how canonical vernacular romances interacted with chronicle texts that have since dropped out of the canon The history and description of the town and borough of Ipswich G.
