

My Autobiography

I am Adrian Carl V. Dumat-ol. I am currently studying at Lanao del Norte Comprehensive High School. I'm working on an autobiographical essay about a life event that motivates me to study harder. I am writing about my experience when I found out that I have half siblings. That incident had a huge impact on me.

It all happened one summer day in 2011 when I was still 6 years old. At that time, I had no idea that I had a half sibling. One day, my father told me to go with him because we were going to visit my aunt. While we were traveling, my father told me that there was something that I needed to know, and he never told me that it was all about my half-siblings. When we arrived at my aunt's house, I noticed my big sister, and at that time, I didn't know she was my half sibling. All I knew is that we have the same mother, which is not.

While we were talking, father revealed a family secret to me that I had not known since I was born. That is, my older sister and I are not purely siblings because we had different mothers. I didn't believe them at first, but as I looked into their eyes, they seemed very serious. My half-sister spoke to me, and she confirmed everything our father had said, and she reassured me that even though we have different mothers, we are still siblings. I feel better and relieved after we talk.

Several years have passed, and my half siblings are changing the way they treat us. So I keep my distance and stop contacting them. They asked our father why I was not contacting them. Back then, I was the one who was going to chat with them first or contact them. They confronted me about why I was avoiding them, and I told them that they were the first ones who changed the way they treated us.

One day, my half siblings start making rumors that because of my mother, our father is starting to lose money, which is not true. So I was stunned by what they said. I asked them why they started to spread rumors about my mother. They made a lot of excuses and now we are still on bad terms.

Even though many problems happen, I need to stay strong and not be affected by what happened. I need to respect my elders, even if they have done bad things to me. Do not put your faith in all of their promises because there is a chance they will break them. Always choose good deeds because of all of the things you have done, God will always watch you.

Sample Of Autobiography Of Myself:

Margaret Sanger: an autobiography Margaret Sanger, 2022-05-28 In *Margaret Sanger An Autobiography* readers are invited into the intimate historical narrative of a woman whose tireless advocacy for birth control marked a pivotal moment in women's healthcare and autonomy. The book is both a personal account and a chronicling of the social and legal obstacles that Sanger faced in her pursuit of women's reproductive rights. With eloquence and a bold literary style, she navigates readers through the pivotal moments of early 20th-century feminism, embedding her story in the larger tapestry of the socio-political climate that both informed and was reshaped by her work. The autobiography is not only a testament to the struggle for reproductive rights but also an important literary artifact in the context of women's studies. Margaret Sanger, driven by her experiences as a nurse and the plights of women she encountered, channeled her observations into activism and ultimately writing. Her autobiography is a culmination of her life's work, written with the intention to illuminate the imperative nature of birth control and to secure its footing as a fundamental human right. The author's personal sacrifices, including arrest and exile, highlight her unwavering commitment to the cause and offer a profound look at resilience in the face of societal and institutional opposition. The importance of *Margaret Sanger An Autobiography* transcends its historical context and offers timeless insights into the struggle for gender equality. This book comes highly recommended to scholars of women's studies, those interested in the history of medicine and reproductive rights, and anyone who appreciates the power of one individual to incite significant change. Sanger's life story will not only educate readers about the arduous journey toward reproductive freedom but will also serve as an inspiring testament to the enduring spirit of advocacy.

History of Psychology in Autobiography Leendert P.

Mos,2009-06-12 Since the 17th century autobiography has an honorable place in the study of history In 1930 the preeminent historian of psychology Edwin Boring writes that a science separated from its history lacks direction and promises a future of uncertain importance To understand what psychology is and what it is becoming the autobiographies of famous psychologists is history at it best Here we find model inquirers of the science who offer a personalized account of themselves and their vocation in the context of the history of the science What is characteristic of many of those who have contributed to an alternate vision of psychological science is that they never considered themselves or were considered by others as belonging to the mainstream of the discipline In considering an alternative history of psychology in autobiography the editor invited contributors whose research and writings have pushed the discipline in other directions pushed its limits and whose scholarship finds its philosophical framework outside the discipline altogether If these contributors may not be model inquirers their scholarship is very much a matter of consequence for those who wish to understand psychology Among the outliers included here are those who devoted themselves to the writing of psychology examining its history theories research and professional practices and who enthusiastically embraced over the course of their lives the discipline as a human science Their influence has been subtle as has been their appeal to many students who affection for the discipline finds its promise in a discerning self awareness and a critical understanding of others and their worlds This volume is not simply a collection of personal chronologies which might inspire or lend appreciation to a younger generation Our contributors write from their personal and professional experience of course but they write of their thinking and understanding of the psyche as an aspect of human life of psychology as an academic form of human sciences inquiry and so bring to bear their scientific and philosophical imagination to their personal challenges in their chosen vocation as psychologists Our contributors cover a broad swath of the second half of the 20th century the century of psychology Nurturing the discipline from within various philosophical social political and cultural roots their autobiographies exemplify marginality if not alienation from the mainstream even as their professional and personal lives give expression to engaged scholarship commitment to vocation and straightforwardly and reflectively a love of the heart From Germany Carl Graumann from France Erika Apfelbaum from Canada David Bakan and Kurt Danziger and from the United States Amedeo Giorgi Robert Rieber and Joseph Rychlak relate their lives to the larger contexts of our times Their personal stories are an integral part of the historiography of our discipline Indeed a contribution to historiography of our discipline is constituted in their autobiographical self presentations for their writings attest as much to their lives as model inquirers as they do to the possibility of psychology as a human science *An Autobiography ; My Schools and Schoolmasters* Hugh Miller,1871 **Autobiography of Adin Ballou, 1803-1890** Adin Ballou,1896 **Born to Ride** Stephen Roche,2012-06-07 In 1987 Irish cycling legend Stephen Roche had an extraordinary year the year to end all years June 1987 Winner of the Giro d Italia July 1987 Secured the yellow jersey at the Tour De France September 1987 Victory at the World Cycling Championships in Austria By winning the Giro d Italia Tour de France and
