**BY TAREK S. ZAHER AND M. KABIR HASSAN**

Similarly, the Islamic financial system is not limited to banking, but covers financial instruments, financial markets, and all types of financial intermediation.

There is a debate among the Islamic community over the effectiveness of an interest-based banking system. While it is acknowledged that banks play a pivotal role in the development of a country through their role as financial intermediaries, the question is how efficient an interest-based system is in
